CARTOON INDUSTRY WHITE PAPER

SUMMARY

English / 中文

2020
CARTOON INDUSTRY WHITE PAPER

SUMMARY

1. Overview of the Cartoon User Research

Section 1 Objective of the Research

This research included the overall cartoon usage behavior and the perception of citizens aged 10 to 59 years old from 2019 to 2020, and examined the usage of cartoons via diverse media regarding digital cartoon (e.g., webtoon, scanned comics, etc.), as well as paper (published) cartoons and cartoon-related perceptions. To this end, this research measured the level, frequency, and different medium used when Koreans consume cartoons. The objective of this research is to provide key inputs for the establishment of rational policies for cartoon content users and industries. Moreover. this research is to enhance the development, production, and marketing activities in the cartoon industry.

Section 2 Research System

1. Research Design

The subjects of this survey were Korean citizens aged 10 to 59 years living across the country who have used cartoon content for the past year.

The sample framework of this research was based on the 1.16 million national survey panels owned by the commissioned survey agency. The survey was conducted by email according to the proportion of the population composition by region, gender, and age based on the National Statistical Office's resident registration demographic data as of June 2020. The survey emails examined the status of the use of cartoon contents.

The survey response period was from July 2019 to July 2020. The data were compiled online from July 28 to August 26, 2020. The collected data were edited and cleaned according to a professional verification process, while data suspected as unreliable were supplemented or discarded.

Table 1 Factual Research Design for Cartoon Users

Classification	Content
Target population	All citizens 10-59 years old
Research population	All citizens 10-59 years old who used cartoon content in the past year
Research areas	17 cities and provinces
Data collection method	Online research through a structural survey
Sample framework	Resident Registration Population Statistics status as of June 2020 provided by the Ministry of Government Administration and Home Affairs The 1.16 million nationwide research panel registered at the research execution agency was used as the sampling framework.
Sampling method	Proportional allocation by region, gender, and age
Sampling error	±1.79% P at a 95% confidence level
Valid sample	3,000 people
Data collection period	July 28 – August 26, 2020
Organizing agency	Korea Creative Content Agency
Executing agency	Global Research

2. The Cartoon User Research Results

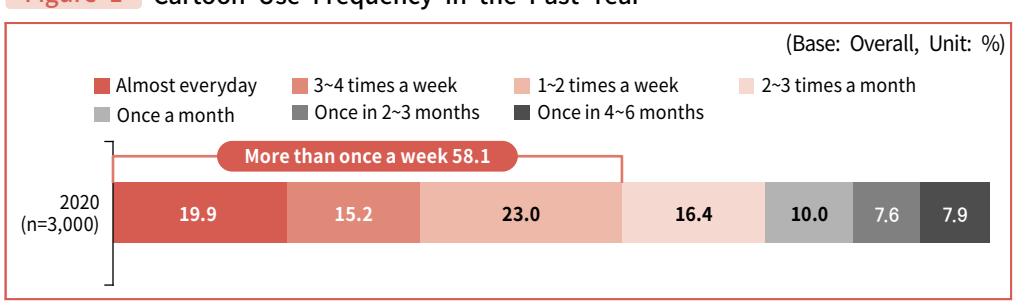

Section 1 Use Status of Cartoons

1. Use Status of Cartoons

A. Cartoon contents use frequency in the past year

The respondents with cartoon use experiences had the highest use frequency at 23.0% “1-2 times a week,” followed by “Almost everyday (19.9%)” and “2-3 times a month (16.4%).” The frequency of use of digital cartoons more than once a week was 58.1%. Looking at the cartoon use frequency by the respondent characteristics, the use rate of “Almost everyday” was relatively higher among women (21.5%) than men (18.4%).

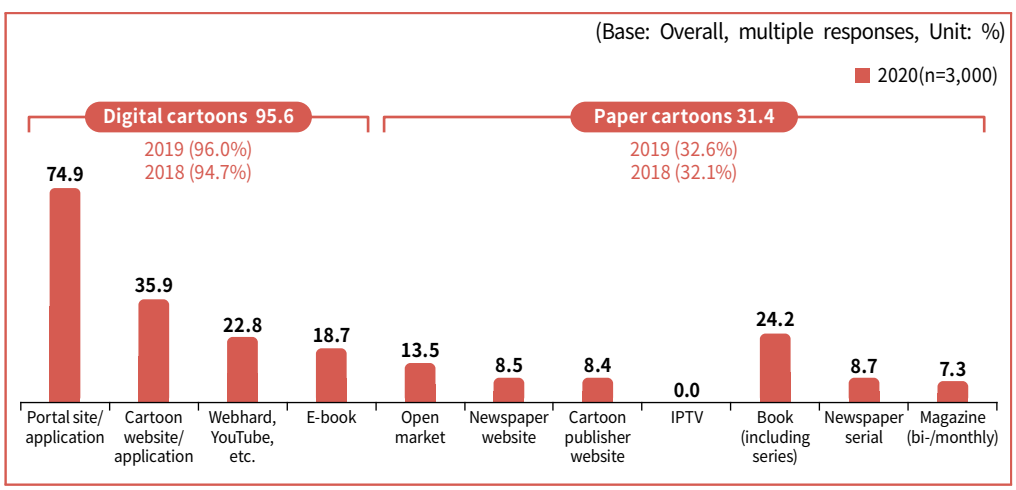

Figure 1 Cartoon Use Frequency in the Past Year

B. Experience of using cartoons by behavior in the past year (by types)

As for the experience of using cartoons by types, digital cartoons were used at a “Portal site/application” the most at 74.9%, followed by a “Cartoon website/application” at 35.9% and on “Webhard, YouTube, etc.” at 22.8%. On the other hand, paper cartoons were used most in “Books (including series)” at 24.2%.

Figure 2 Experience of Using Cartoons by Behavior in the Past Year (by Types)

C. Experience of using cartoons by behavior in the past year

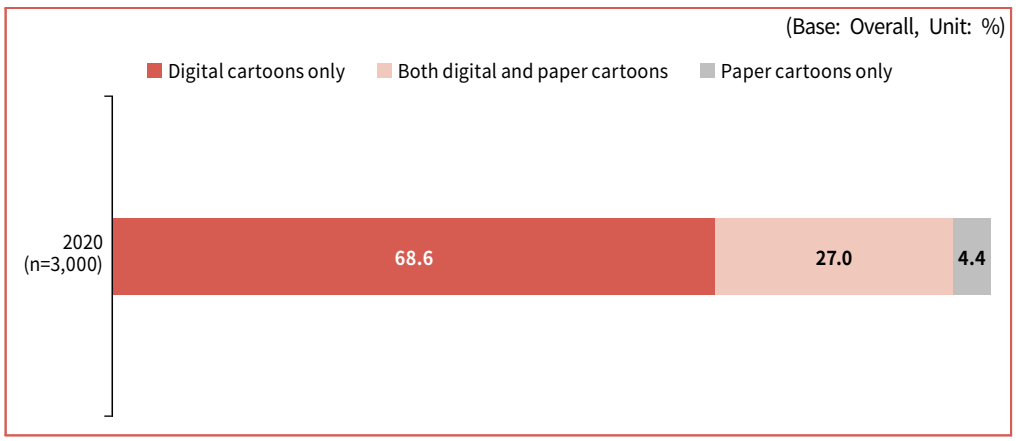

As for the experience of using cartoons by behavior, 68.6% of the subjects used “Digital cartoons only,” 27.0% used “Both digital and paper cartoons,” and 4.4% used “Paper cartoons only.”

“Digital cartoons only” was the answer with the highest rate, as in the previous year.

Looking at the characteristics of the respondents, women (71.5%) had a higher percentage of use of “Digital cartoons only” than men (66.0%).

By age, the respondents aged 15-19 years had a high percentage of use of “Digital cartoons only” (73.8%) and those aged 10-14 years had a high percentage of use of “Paper cartoons only” (7.7%).

Figure 3 Experience of Using Cartoons by Behavior in the Past Year

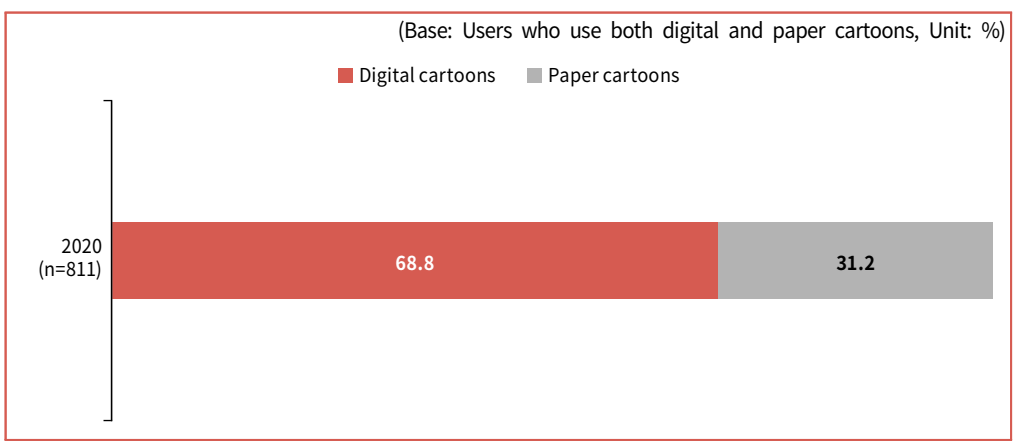

D. Use ratio of digital cartoons vs. paper cartoons

On average, those who use both digital and paper cartoons use digital cartoons 68.8% of the time, and paper cartoons, 31.2% of the time.

Looking at the respondents' characteristics by age, those of 15-19 years of age had a high percentage of use of “Digital cartoons” (80.1%).

Figure 4 Use Ratio of Digital Cartoons vs. Paper Cartoons

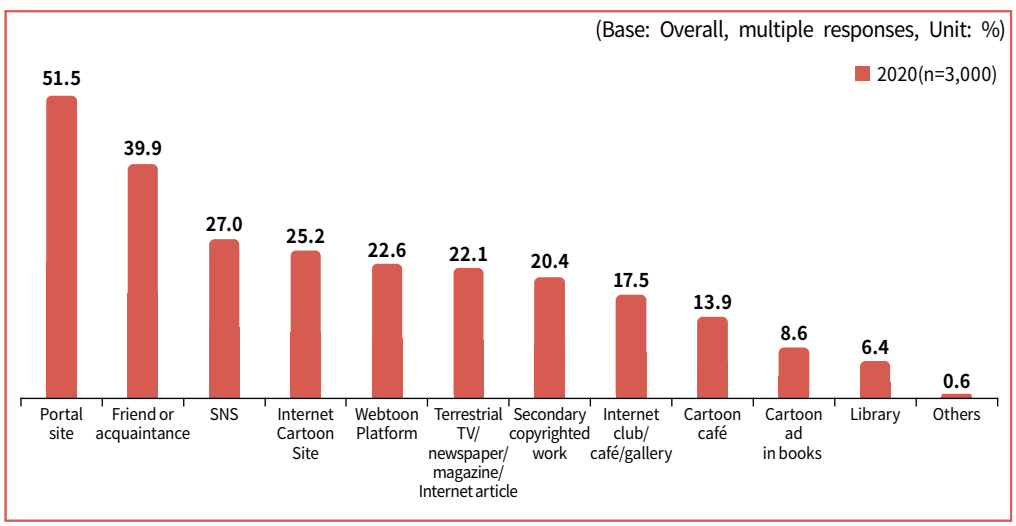

2. Channel for the Cartoon-related Information Acquisition

For the channel for the cartoon-related information acquisition, “Portal site” topped the responses at 51.5%, followed by “Friends or acquaintances (39.9%)” and “SNS (27.0%).”

Looking at the characteristics of the respondents, the ratio of the “Portal site” responses of men was higher (52.9%) than that of women (50.0%).

By age, the ratio of “Portal sites” responses of those aged 40 to 49 was high at 55.1%.

Figure 5 Channel for the Acquisition of Cartoon-related Information

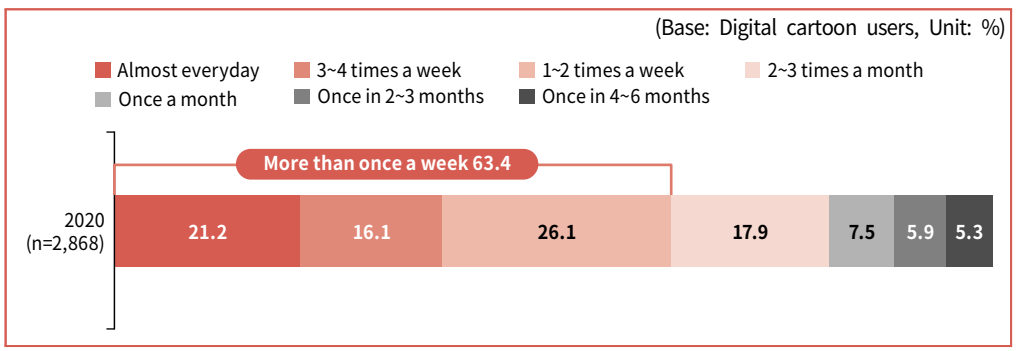

Section 2 Status of Use of Digital Cartoons

1. Overall Experience of Using Digital Cartoons

A. Frequency of use of digital cartoons in the past year

The respondents with experience in using digital cartoons (n = 2,880) had the highest use frequency in the past year at 26.1% for “1-2 times a week.”

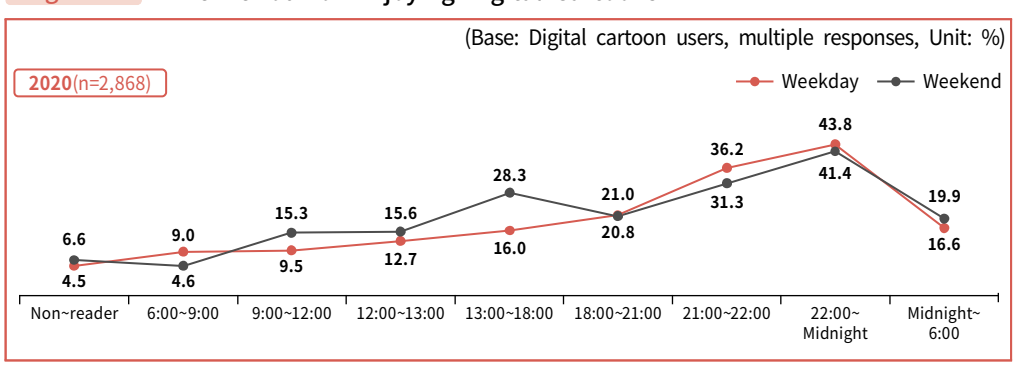

Figure 6 Frequency of Use of Digital Cartoons in the Past Year

B. Time period for enjoying digital cartoons

For the readers of digital cartoons, the most active reading time was from “20:00 to midnight” during weekdays at 43.8% and during weekends at 41.4%.

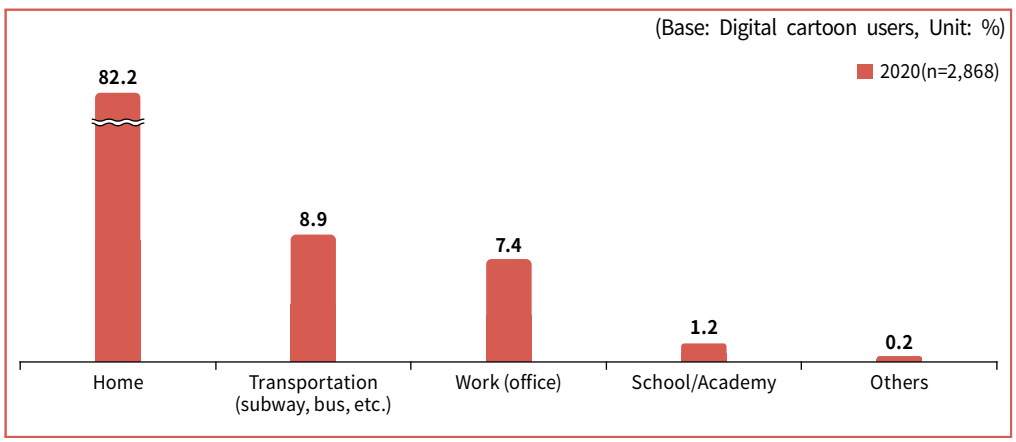

Figure 7 Time Period for Enjoying Digital Cartoons

C. Main place for using digital cartoons

As for the main place where the respondents use digital cartoons, “Home” was the most frequent answer at 82.2%, followed by “Transportation (subway, bus, etc.) (8.9%)” and “Work (office) (7.4%).”

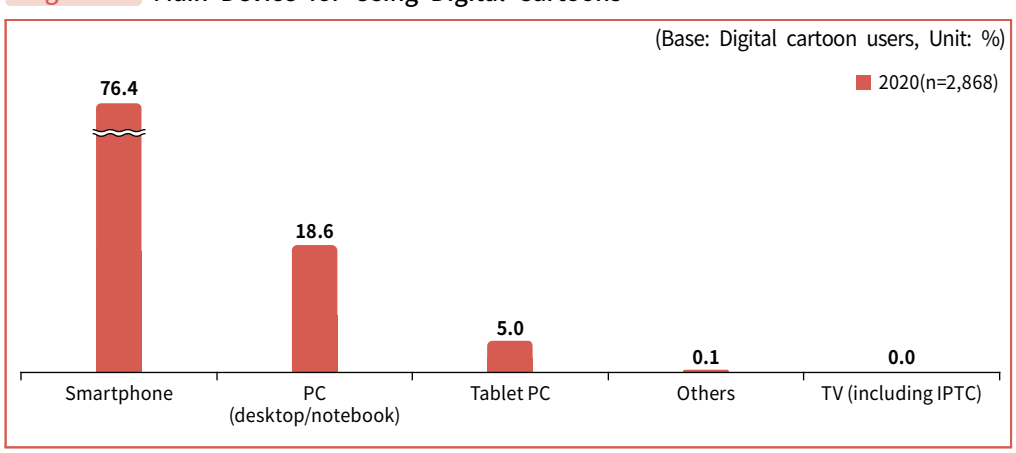

Figure 8 Main Place for Using Digital Cartoons

D. Main device for using digital cartoons

When viewing digital cartoons, the main device used was “Smartphone” at 76.4%, followed by “PC (desktop/notebook)” at 18.6% and “Tablet PC” at 5.0%.

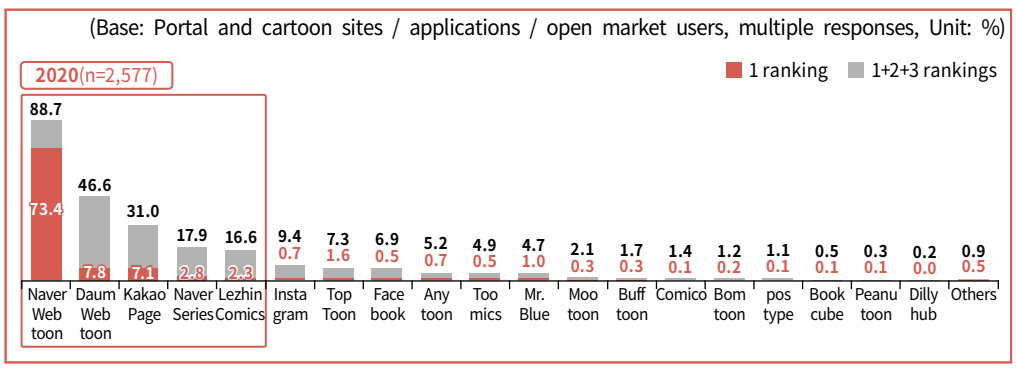

Figure 9 Main Device for Using Digital Cartoons

E. Main platform service for using digital cartoons

In 2020, “Naver Webtoon” had the highest use at 88.7% (1+2+3 ranking) followed by “Daum Webtoon” at 46.6% and “Kakao Page” at 31.0%.

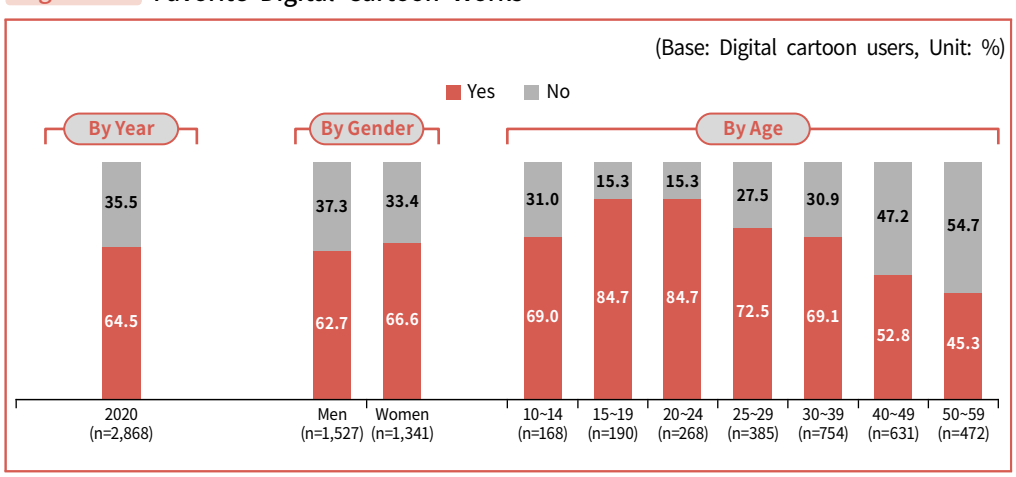

Figure 10 Main Platform Service for Using Digital Cartoons

F. Having favorite digital cartoon works

Among the digital cartoon users, 64.5% answered “Yes” for having favorite digital cartoon works. By gender, the ratio of the responses of women (66.6%) was higher than that of men (62.7%). By age, the ratio of the “Yes” responses was high among those aged 15-19 (84.7%) and 20-24 (84.7%).

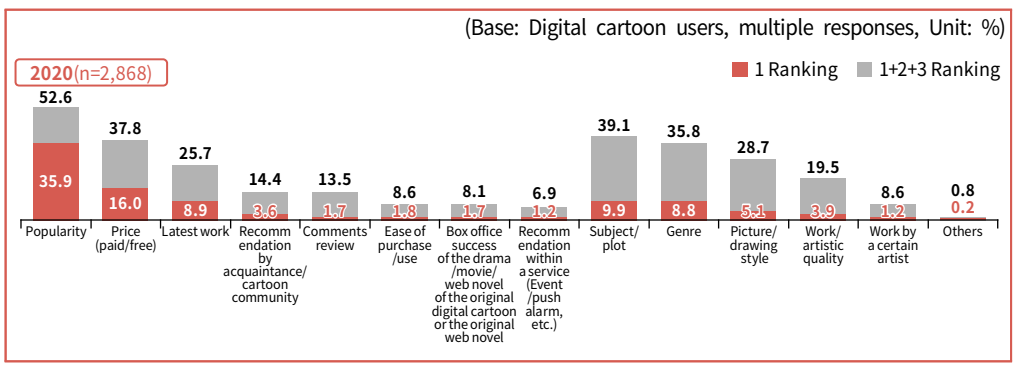

Figure 11 Favorite Digital Cartoon Works

G. Selection criteria for digital cartoons

For the selection criteria (Rankings 1+2+3) for paper cartoons. “Popularity” topped the responses at 52.6%, followed by “Subject/plot” (39.1%) and “Price (paid/free)” (37.8%).

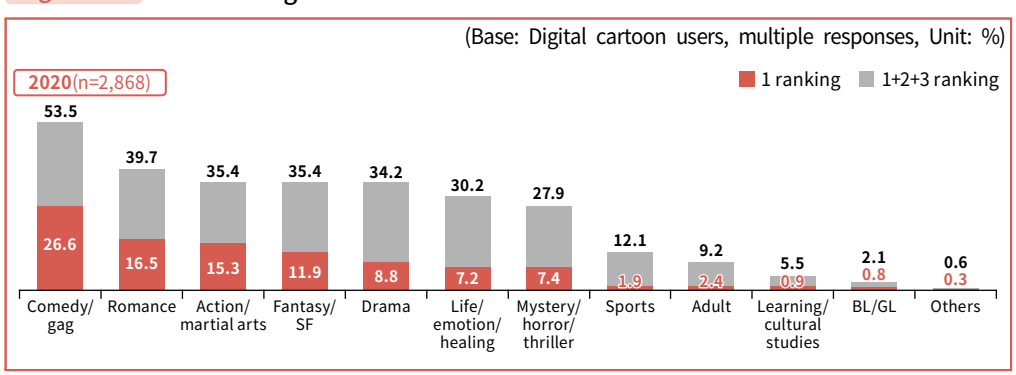

Figure 12 Selection Criteria for Digital Cartoons

H. Favorite digital cartoon genre

The most favored genre of digital cartoons (1+2+3 ranking) was “Comedy/gag” (53.5%), followed by “Romance” (39.7%) and “Action/martial arts” (35.4%). Looking at the digital cartoon genres (1+2+3 ranking) according to the respondents' characteristics the ratio of “Comedy/gag” responses was higher among men (55.5%) than among women (51.1%).

Figure 13 Favorite Digital Cartoon Genre

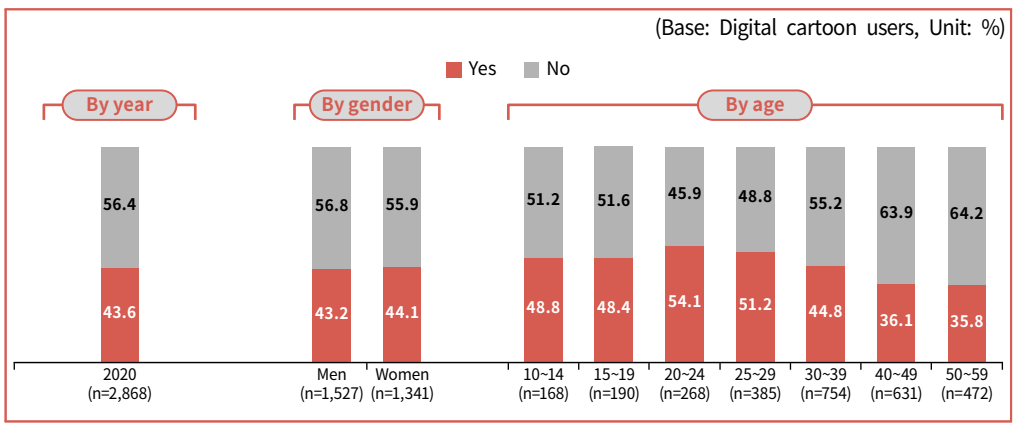

2. Use of Paid Digital Cartoons

A. Experience of using paid digital cartoons in the past year

Among the readers of digital cartoons, 43.6% answered that they experienced paid reading digital cartoons in the past year.

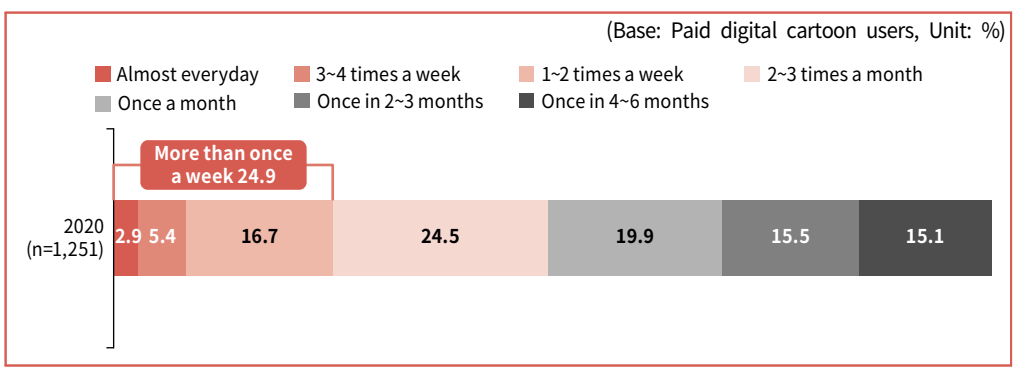

Figure 14 Experience of Using Paid Digital Cartoons in the Past Year

B. Frequency of paid digital cartoons use

On the readers' frequency of digital cartoons use, most of them (24.5%) answered “2-3 times a month.” As for the rate of use of digital cartoons, the most frequent answer 24.9% was “More than once a week.”

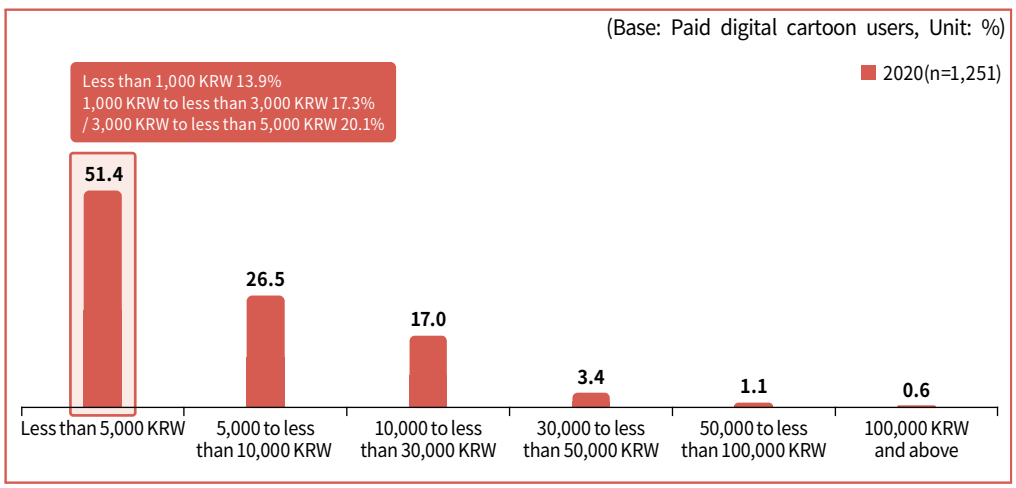

Figure 15 Frequency of Paid Digital Cartoons Use

C. Average monthly expenses for purchasing digital cartoons

Most (51.4%) of the paid digital cartoon users said their average monthly expenditure for purchasing digital cartoons was “Less than 5,000 KRW.”

Figure 16 Average Monthly Expenses for Purchasing Digital Cartoons

Section 3 Status of Use of Paper Cartoons

1. Overall Experience in Using Paper Cartoons

A. Frequency of paper cartoon use in the past year

The frequency of paper cartoons use by most (27.0%) of the readers (n = 943) was “2-3 times a month,” followed by “1-2 times a week” (17.2%) and “Once in 4-6 months” (15.9%). Paper cartoons were used more than once a week mostly by men (34.3%) and by those aged 10-14 years (35.2%).

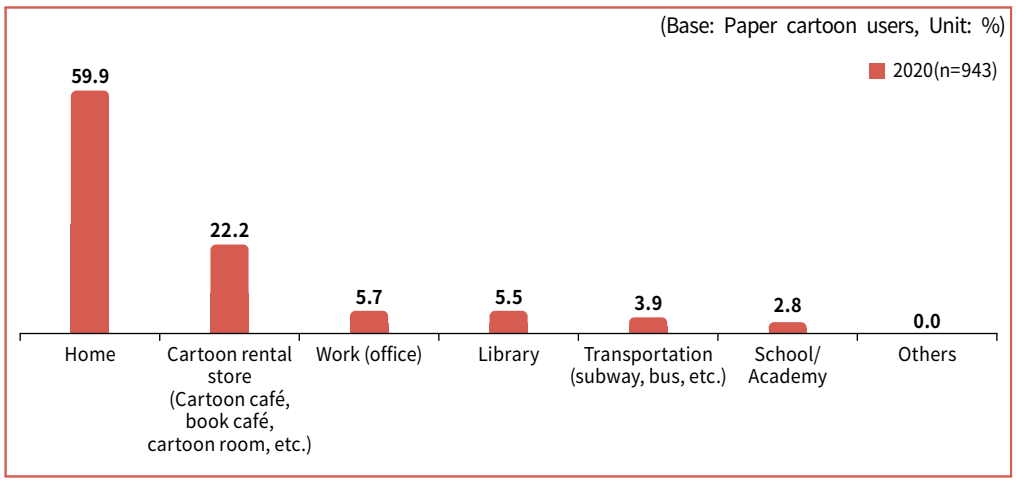

Figure 17 Frequency of Use of Paper Cartoons in the Past Year

B. Main reading place for paper cartoons

As for the place where the respondents mainly read paper cartoons, “Home” was the top answer at 59.9%, followed by “Cartoon café” at 22.2%.

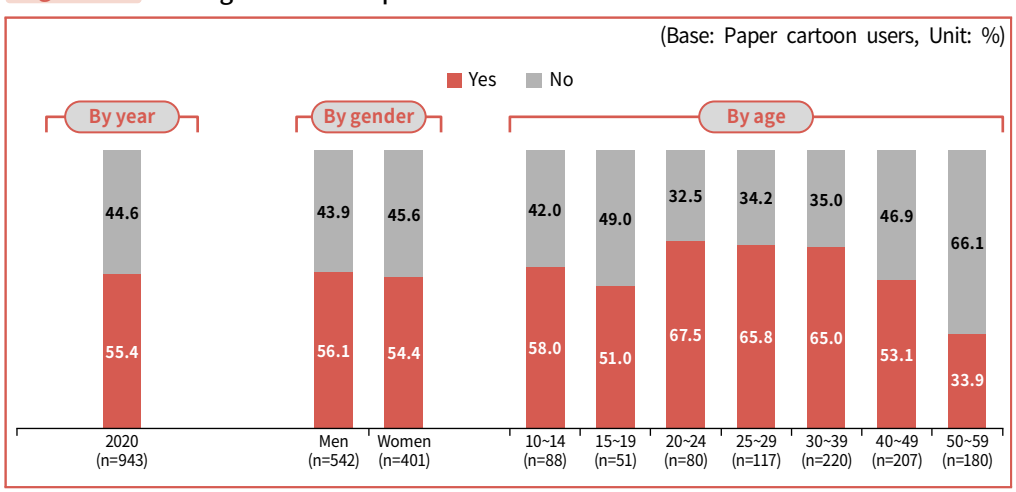

Figure 18 Main Reading Place for Paper Cartoons

C. Having favorite paper cartoon works

Among the paper cartoon users, 55.4% answered “Yes” to having favorite paper cartoon works. Looking at the characteristics of the respondents, more men (56.1%) answered “Yes” than did women (54.4%).

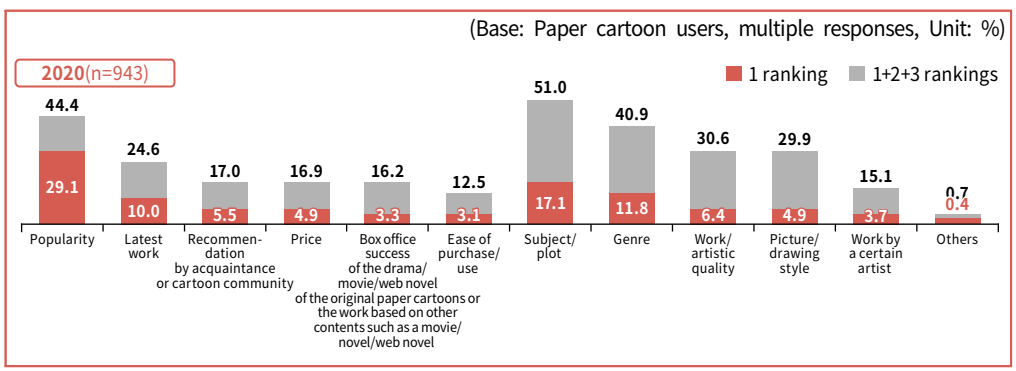

Figure 19 Having Favorite Paper Cartoon Works

D. Selection criteria for paper cartoons

The most frequently chosen selection criteria (1+2+3 rankings) for paper cartoons were “Subject/plot” (51.0%), followed by “Popularity” (44.4%) and “Genre” (40.9%). As to their ranking, “Popularity” was ranked the highest(29.1%),” followed by “Subject/plot” (17.1%) and “Genre” (11.8%).

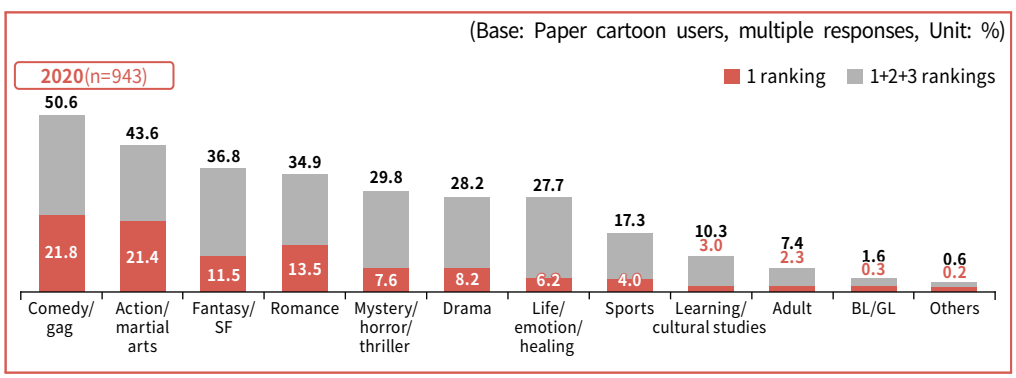

Figure 20 Selection Criteria for Paper Cartoons

E. Favorite paper cartoon genre

The most favored genres (1+2+3 rankings) of paper cartoons were “Comedy/gag” (50.6%), followed by “Action/martial arts” (42.6%) and “Fantasy/SF” (36.8%). As to their ranking, “Comedy/gag” was ranked highest the most (21.8%), followed by “Action/martial arts” (21.4%) and “Romance” (13.5%).

Figure 21 Favorite Paper Cartoon Genre

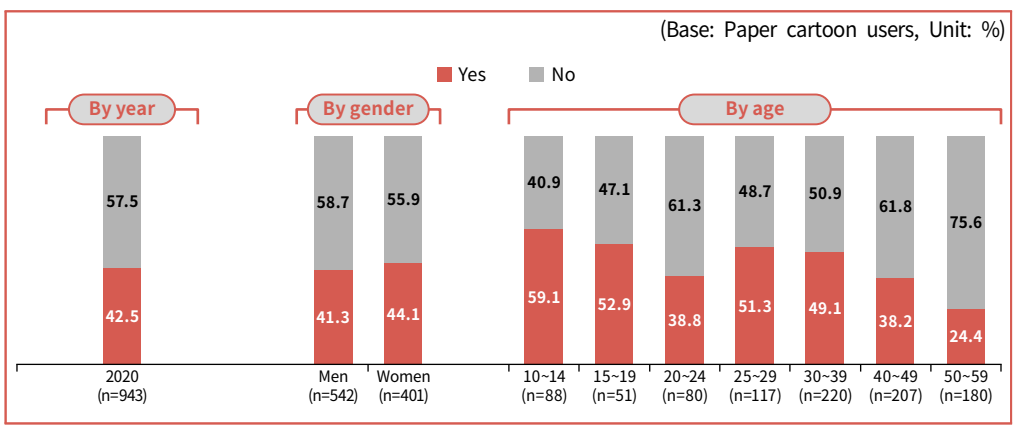

2. Paper Cartoon Purchase

A. Experience of purchasing paper cartoons

Among the paper cartoon readers, 42.5% said they have purchased paper cartoons.

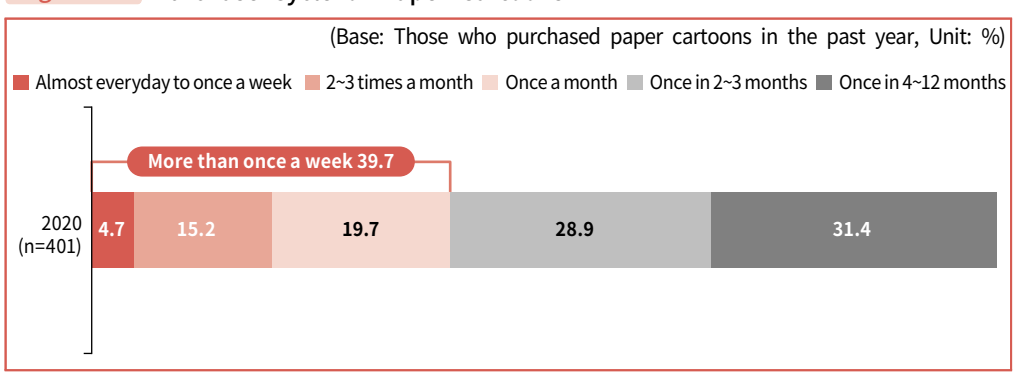

Figure 22 Experience of Purchasing Paper Cartoons in the Past Year

B. Purchase cycle of paper cartoons

Most (31.4%) of the paper cartoon users purchases paper cartoons “Once in 4-12 months,” followed by “Once in 2-3 months” (28.9%) and “Once a month” (19.7%).

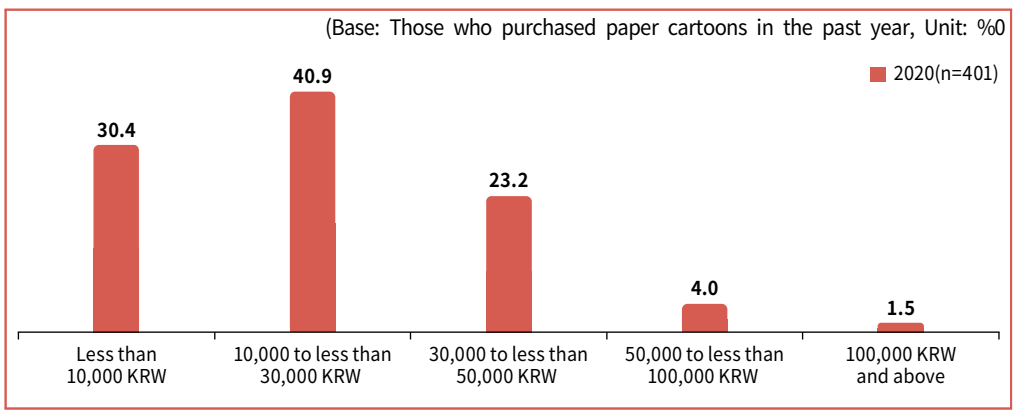

Figure 23 Purchase Cycle of Paper Cartoons

C. Average monthly expenses for paper cartoons

The average monthly expenditure of most (40.9%) of the paper cartoon users for paper cartoons was “10,000 to less than 30,000 KRW.”

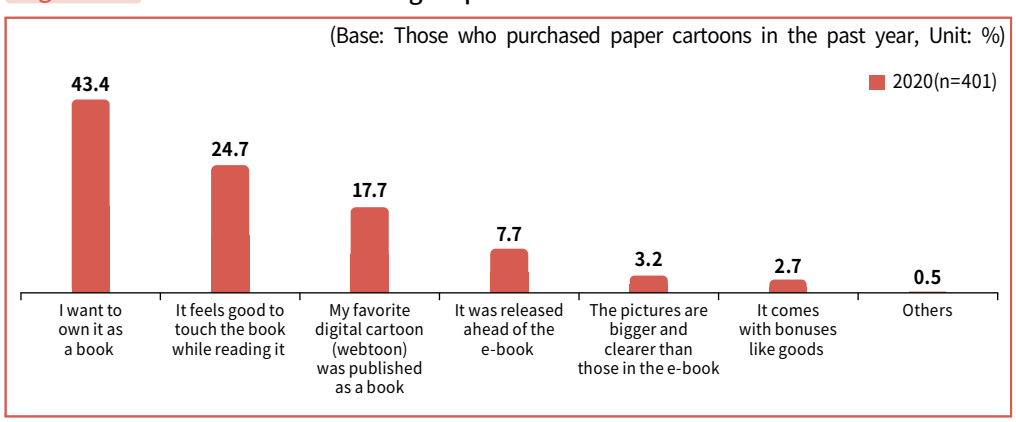

Figure 24 Average Monthly Expenses for Paper Cartoons

D. Reason for purchasing paper cartoons

The top reason (by 43.4%) for purchasing paper cartoons was “I want to own it as a book,” followed by “It feels good to touch the book while reading it” (24.7%) and “My favorite digital cartoon (webtoon) was published as a book” (17.7%).

Figure 25 Reason for Purchasing Paper Cartoons

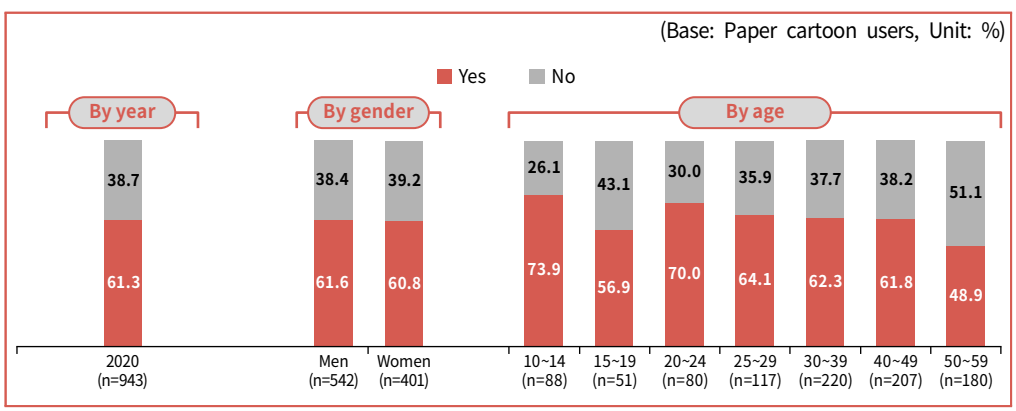

3. Rental/Browsing of Paper Cartoons

A. Experience of renting/browsing paper cartoons in the past year

Most (61.3%) of the paper cartoon users said they have rented/browsed paper cartoons.

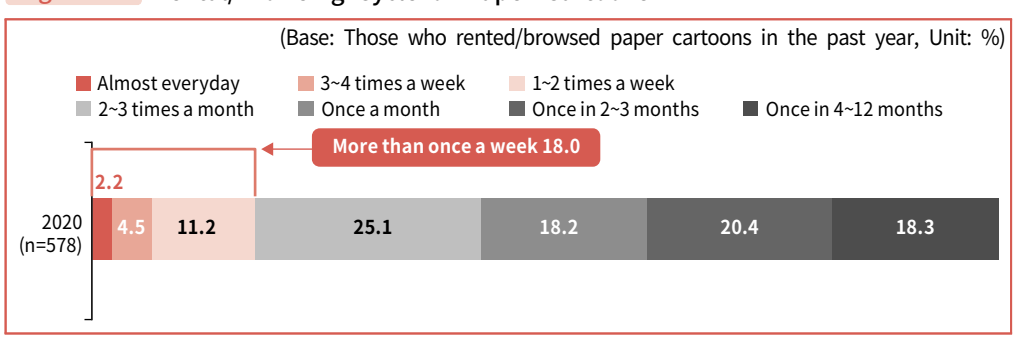

Figure 26 Experience of Renting/Browsing Paper Cartoons in the Past Year

B. Rental/browsing cycle of paper cartoons

Most (25.1%) of the respondents who have experienced renting/browsing paper cartoons said they rented/browsed paper cartoons “2-3 times a month,” followed by “Once in 3 months” (20.4%).

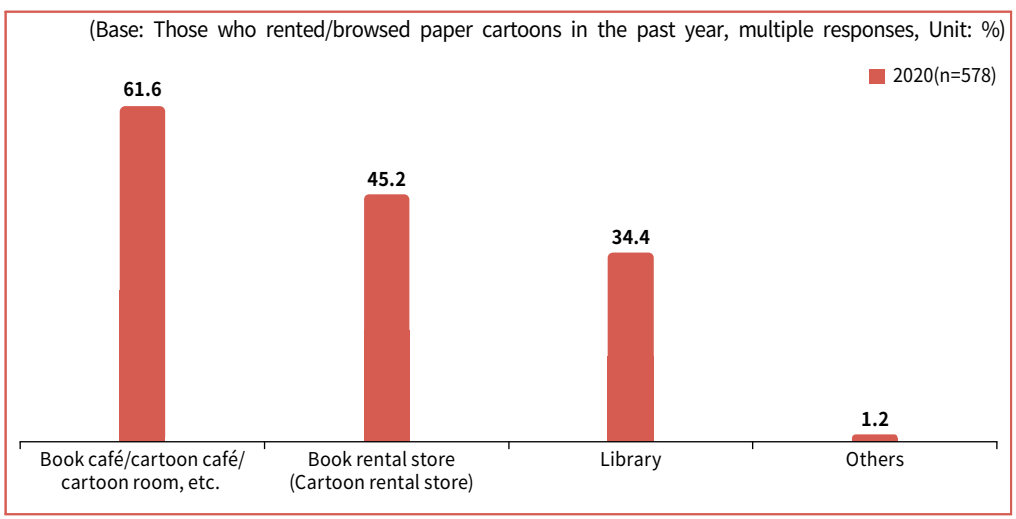

Figure 27 Rental/Browsing Cycle of Paper Cartoons

C. Place of renting/browsing paper cartoons

Respondents rented/browsed paper cartoon the most at a "Book cafe/cartoon cafe/cartoon room"(61.6%), followed by at a “Book rental store (cartoons rental store)” (45.2%) and at a “Library” (34.4%).

Figure 28 Place of Renting/Browsing Paper Cartoons

3. Cartoon Industry Support Status in 2019

Section 1 Reinforcing Production Capabilities

1. Creation and Production Support

A. Support for creating diverse cartoons

This project was promoted to protect and disseminate the diversity of genre cartoons that had not become active in the public sphere and to create a cultural ecosystem where the values of various cultures can be realized. The project produced and supported 34 outstanding new and diverse cartoon works, including artistic and experimental works that did not prioritize commercial purposes. The competition was carried out by dividing the production support into support for inactive genres and support for children's cartoons. A total of 116 companies and writers participated in the competition and a total of 122 works were submitted.

For the submitted works, the production quantity was determined according to the genre, and the creative support fund was provided differentially with 70% provided as a creative support fund for artists to establish an environment in which artists can focus more on their work.

For the selected works, their publication as books and their participation in

large domestic events were supported, which expanded opportunities for diverse promotions and for the development of a secondary industry.

B. Support for cartoon planning and development

This project leads cartoon creators to actively develop their works by supporting the planning and reporting thereof, for which creators need the greatest support so that excellent ideas can lead to creation. The project discovered and produced 32 newly planned and developed works through funding support broken. Such support can be broken down into 15% for planning/development/coverage expenses and 85% for creative support to enable creators to focus on their work. For the competition, 269 works were submitted, which resulted in a low acceptance rate of "8.41:1." The project also implemented various promotions for selected works to boost their completion and enhance the possibility of their commercialization.

This project is to enable cartoon creators to focus more on cartoon planning and development. Furthermore, this project aims to enhance its qualitative and quantitative aspects by adjusting the amount of its funding support in consideration of the production period, and by expanding the target of its support to more creators.

C. Support for cartoon contents diversification

This project contributed to the expansion of the cartoon culture foundation and the promotion of cartoon consumption by proposing various means to enjoy cartoon contents and nurturing a new audience for cartoon consumption. It produced and supported two exhibition works and four MCN contents.

D. Support for cartoon series production

This project produced and supported 29 new cartoon series for online and offline media. It solidified the industrial ecosystem and cartoon creative

foundation by allowing a win-win union of creators and media. The produced works were featured in a series in a domestic portal site and pitched at large-scale domestic events, thereby opening doors for the development of the secondary industry and promoting structuring of the cartoon creation ecosystem by uniting creators and platforms.

Section 2 Distribution Support

1. IP Dissemination Support

A. Support for cartoon-linked contents production

The production of cartoon-linked content has been supported since 2014 to activate the cartoon IP business by securing various distribution channels for cartoon IPs and increasing their value-added, as well as by producing secondary content in various genres such as movies, animations, games, dramas, and performances. In 2019, 10 works were provided funds for content production and promotional marketing.

The content producers continued to search for outstanding original cartoons with proven popularity and a solid story and the project promoted the discovery of excellent cartoon IPs and the matching of content producers with creators through pitching events.

B. Cartoon IP promotion

This project was established in 2018 to continuously discover competitive cartoon IPs and to establish a fair cartoon appreciation culture. This project went forward in two directions: launching a campaign to eliminate the use of illegal webtoon sharing sites, and staging cartoon IP pitching events.

The campaign to eliminate the use of illegal webtoon sharing sites, held from December 2019 to January 2020, urged cartoon users to improve their awareness of illegal webtoon sharing sites through various channels such as online, outdoor billboards, and theater advertisements.

A total of five cartoon IP pitching events were held in 2019 to introduce Korean cartoon IPs by selectively inviting buyers of each content genre. These events were connected to the major events of other content genres.

Table 2 Overview of the 2019 Cartoon IP Pitching Event

Venue	K-Comics in Comic-Con Seoul	Story & Comics to Broadcast	K-Comics to PLAY	K-Comics in G-Star	GCC K-Contents Showcase
Date/Location	Aug. 2-4/ COEX	Aug. 22-23/ COEX	Oct. 14/ Chaos Hall, Blue Square	Nov. 14-15/ BEXCO	Dec. 9-11/ Dongdaemun DDP
Linked Market	Comic-Con Seoul	BCWW	-	G-Star	-
Pitched Work	10	14	7	6	10 companies
No. of Buyers	118	332	102명	126	84
No. of Consultations	53	280	48	43	129

Through the five cartoon IP pitching events in 2019, the project selectively introduced Korean cartoon IPs to the interested parties who planned to produce contents using cartoon IPs and provided as many business opportunities as possible to the pitching companies and the content producers.

2. Vitalization of Domestic Distribution

A. Establishing a webtoon archive

Cartoons and webtoons are the primary sources of various contents and cultural resources that can be expanded into secondary contents even after a long time. Even though interest in the cartoon industry is increasing with the growth of webtoon industry, the reality is that the comprehensive management system for webtoon is insufficient. To this end, the Webtoon Archive Construction Project is striving to establish a plan to develop an integrated information management system in consideration of the characteristics of the cartoon/webtoon -related databases that were managed in a dispersed manner.

In addition to the establishment of the webtoons archive ISP, the original cartoon and webtoon database is also being steadily implemented. In 2019, 1,446 cases of webtoon distribution information and 2,016 webtoon images were collected. The collected data are further subdivided and transformed into a specialized database. In the future, the database will provide cartoon industry workers useful information such as cartoon statistics and research in various fields.

B. Digital cartoon Gyujanggak project

This project is to enhance the value of Korean cartoons through the collection and preservation of cartoon data, the establishment of a cartoon knowledge information database, and the provision of opportunities to appreciate cartoons through cartoon research based exhibitions and education.

Figure 30 Status of Construction of the Specialized Cartoon Information Database

Total (Case)	Comprehensive Cartoon Database (Published cartoons including webtoons, etc.)	Database Artist/Work Information Database	Article Database (Research/overseas trends, etc.)
10,133	9,567	125	441

Status of Construction of the Specialized Cartoon Information Database

C. Support for the publication of a cartoon information magazine

The support for the publication of a cartoon information magazine was established in 2018 to share cartoon industry-related information, build a foundation for cartoon consumption promotion, and create a foundation for a cartoon appreciation culture. The project was implemented until July 2019, during when four quarterly cartoon magazines were launched and two issues (September and December) were published until the end of the year.

3. Overseas Expansion Support

In this project, four sub-projects are underway to expand opportunities for overseas expansion of excellent Korean cartoons through translation support for excellent Korean cartoons suitable for export, through support for the entry of Korean cartoons into the global market and for the establishment of an overseas network, and through business support and support for branding of

webtoons for strategic major overseas markets.

A. Support for overseas export and domestic and overseas marketing of cartoons

In tune with the growing interest in Korean cartoons and webtoons in the global market, their participation in foreign cartoon-related markets and cartoon IP PR and pitching events has grown in 2019 to promote their increased export to the global market.

A Korean Pavilion was set up in international events such as the Beijing International Book Fair in August and the Frankfurt Book Fair in October.

Moreover, in the Korean cartoon pitching events K-Story & Comics in Japan and K-Story & Comics in America that were held in Japan in May and in the US in November, as well as at the K-Contents EXPO in Thailand in June and in Russia in August, Korean cartoon companies were able to promote their work and secure opportunities for business consultations with local buyers. In addition, their participation in the 2019 Comic Con Paris in October and in the 2019 Comic Con Tokyo in November gave them an opportunity to promote Korean cartoons and webtoons to the local comics fans.

B. Support for overseas exhibitions and exchange of Korean cartoons

Korean cartoons have been constantly evolving to expand globally and leap forward as the key contents of the new Korean Wave. Various overseas exhibitions and cartoon exchanges were promoted to raise global awareness and enhance the artistic value of Korean cartoons by disseminating the originality and diversity of Korean webtoons.

Overseas exhibitions were promoted such as those affiliated with overseas cultural centers and related to cartoon contents. The exhibitions affiliated with overseas cultural centers were held at the same time as large-scale festivals and Comic-Con events in Canada, Italy, and Brazil to strengthen the promotion

of the project.

For the exhibitions affiliated with overseas cultural centers, the project introduced popular Korean webtoons and planned a variety of programs, such as a drawing demonstration, a seminar, and a workshop, in cooperation with overseas cultural centers and foreign officials, for which they received a great response from the locals. Privately supported exhibitions of Korean cartoons were held in Japan, Belgium, and France, which played a key role in promoting the excellence and culture of Korean webtoons.

The project promoted not only overseas exhibitions but also comics exchange activities to enhance the exchange of cartoon culture among artists and the friendship between countries. The project held the Korea-China-Japan New Cartoon Artist Contest in Chongqing, China to discover new comics artists from the top three Asian comics powerhouses and to strengthen the network of the three countries. Moreover, the International Comics Artists Conference, which is supported by a private exchange organization that promotes mutual understanding through friendship and harmony among cartoonists from all over the world, was held in Kitakyushu, Japan in 2019 and strengthened private sector's cooperation of each country for the development of the cartoon contents industry.

C. Overseas webtoon promotion

This project was initiated to lay the foundation for global business promotions, such as a new business joint venture model and the discovery of new overseas buyers. Focused on understanding the trends in the overseas comic book industry and strengthening the industry network, it has provided a new driving force for advancing into overseas markets by participating in large-scale overseas comics markets such as China, Hong Kong, the US, and Indonesia, targeting domestic publishers, agencies, platforms, and cartoon officials.

The Korea International Comics Market (KICOM) is held every year to provide global business opportunities to cartoon content companies that are struggling

not only to enter overseas markets, but even to the domestic markets by inviting prominent overseas buyers to Korea.

KICOM, which was successfully held during the 2019 Bucheon International Comics Festival with the participation of 60 domestic companies and 16 overseas buyer companies from nine countries, staged 304 business consultations, raised KRW51.2 billion (USD44.15 million) in consultation fees and KRW4.8 billion (USD4.14 million) in contraction promotion fees, and closed two MOUs.

D. Translation support for exporting works

This project provided translation and reproduction support for 44 types of 39 works for export so that more people can enjoy outstanding Korean cartoons. By translating the works into eight different languages that included English, Japanese, Chinese, and French and with the local sentiment, the project contributed to the establishment of a foundation for the entry of 20 Korean companies (cartoon-related publishers, agencies, platforms, etc.) into overseas markets.

By doubling the number of its supported works from the previous year, various companies and works have benefited, and the connections between projects have been strengthened so that the translated works can be actively used in overseas business and promotional events. Moreover, more than 80% of its support fund was used to cover translation, supervision, and editing costs, thereby further reducing the translation cost for the companies.

Even though the project promoted foreign language evaluation and the improvement of translation through cooperation with specialized foreign language agencies, the qualitative improvement of translation remains a task to be resolved due to the lack of translators specializing in cartoons.

2020
漫画产业白皮书

摘　要

第1章 漫画用户实情调查概要

第1节 调查目的

本调查以2019~2020年10~59岁国民的整体漫画阅读行为和认知为对象，调查了通过不同媒体对数字漫画(webtoon(网络漫画)、扫描漫画等)以及纸质(出版)漫画和漫画相关认知的使用形态。为此通过各种媒体对漫画的阅读情况、阅读频率和阅读方法的考察来衡量漫画的阅读水平。本调查的目的是通过用户统计资料，对漫画内容用户和产业制定合理的政策，并以此作为支持漫画产业发展、生产和营销活动的依据。

第2节 调查体系

1. 调查设计

本调查的对象为在韩国居住的10周岁到59周岁的国民中，最近一年看过漫画的人。

调查将调查执行机构持有的全国固定样本组116万名作为抽样框，根据截至2020年6月统计厅居民登记人口统计资料，按各地区、性别、年龄的人口组成比例，发送在线调查电子邮件后，按照是否观看过漫画内容进行了调查。

调查周期为一年一次，观看内容调查的回答标准除非另行提及，否则均为2019年7月~2020年7月(最近一年)。在2020年7月至8月期间（7.28-8.26）通过在线调查方法收集数据。收集的数据按照专业验证流程进行编辑和清理，如果在验证过程中怀疑数据的可靠性，则对相应数据进行补充户或丢弃。

表 1 漫画用户实情调查设计

项目	内容
目标总体	10周岁～59周岁的全体国民
调查总体	在10周岁～59周岁的全体国民中最近一年阅读过漫画的人
调查地区	全国17个市和道
资料收集方法	通过结构化的问卷在网上进行调查
抽样框	截至2020年6月，行政自治部提供的居民登记人口统计现状 把调查执行机构持有的全国固定样本组116万名作为抽样框
抽样方法	按各地区/性别/年龄比例分配
样本误差	在95%置信度下为±1.79%p
有效样本	3,000名
资料收集时间	2020年7月28日~8月26日
调查主管	韩国文化产业振兴院
调查执行	(株)Global Research

第2章 漫画用户实情调查结果

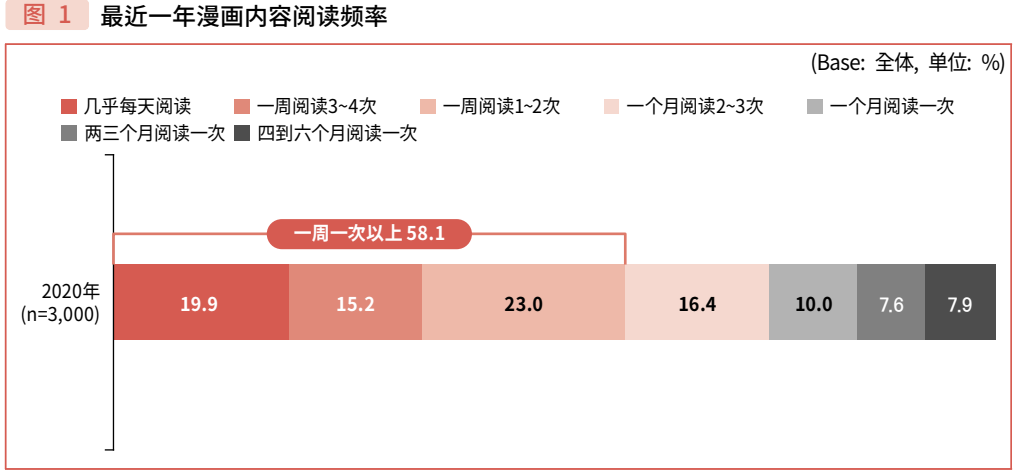

第1节 漫画阅读情况

1. 漫画阅读情况

1) 最近一年漫画内容阅读频率

漫画阅读频率为“一周阅读1～2次”的人比例最高，占23.0%。其后，依次为“几乎每天阅读(19.9%)”、“一个月阅读2~3次(16.4%)”等。在全体调查对象中，有58.1%的人一周阅读一次以上漫画。从回答者的特征来看漫画阅读频率，“几乎每天观看”动画的比例为女性(21.5%)相对高于男性(18.4%)。

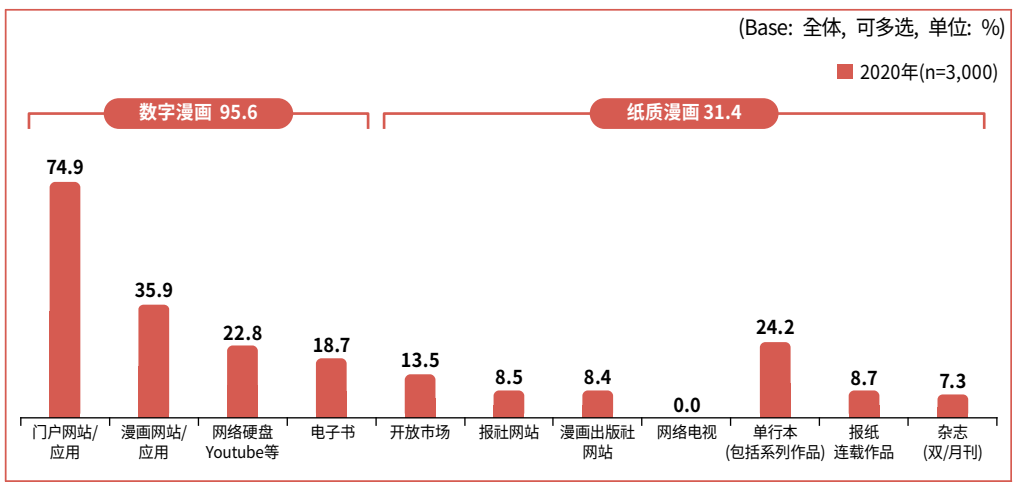

图 1 最近一年漫画内容阅读频率

2) 最近一年阅读漫画的方式(具体类型)

从阅读漫画的具体方式来看，数字漫画的“门户网站/应用”以74.9%占据首位。其后，依次为数字漫画的“漫画网站/应用程序”(35.9%)，“网络硬盘，Youtube等”(22.8%)等。另外，在纸质漫画中，“单行本(包括系列作品)”以24.2%占据首位。

图 2 最近一年阅读漫画的方式(具体类型)

3) 最近一年不同漫画形式的用户情况

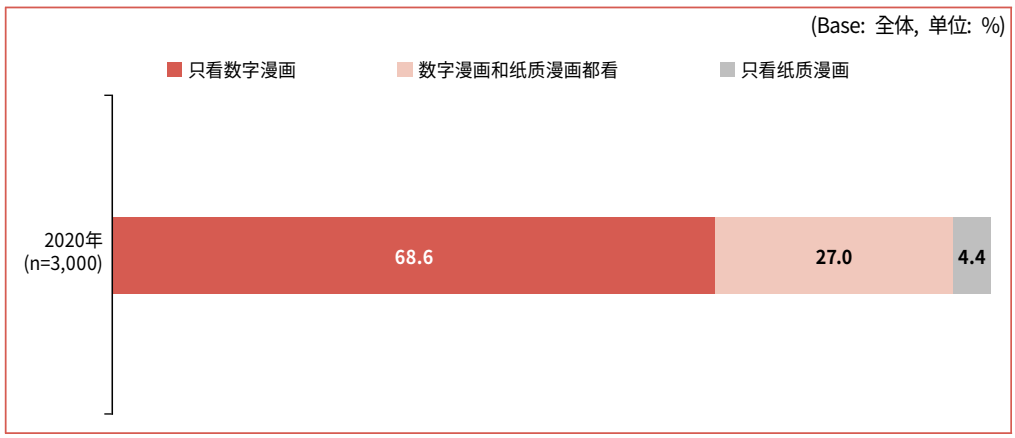

从阅读漫画的形式来看，“只看数字漫画”的比例达到68.6%，“数字漫画和纸质漫画都看”占27.0%，“只看纸质漫画”占4.4%。

“只看数字漫画”继前一年占据最高比例。

从回答者的特征来看，女性(71.5%)“只看数字漫画”的比例相对高于男性(66.0%)。

年龄段15~19岁(73.8%)“只看数字漫画”的比例相对较高，10~14岁(7.7%)“只看纸质漫画”的比例相对较高。

图 3 最近一年不同漫画形式的用户情况

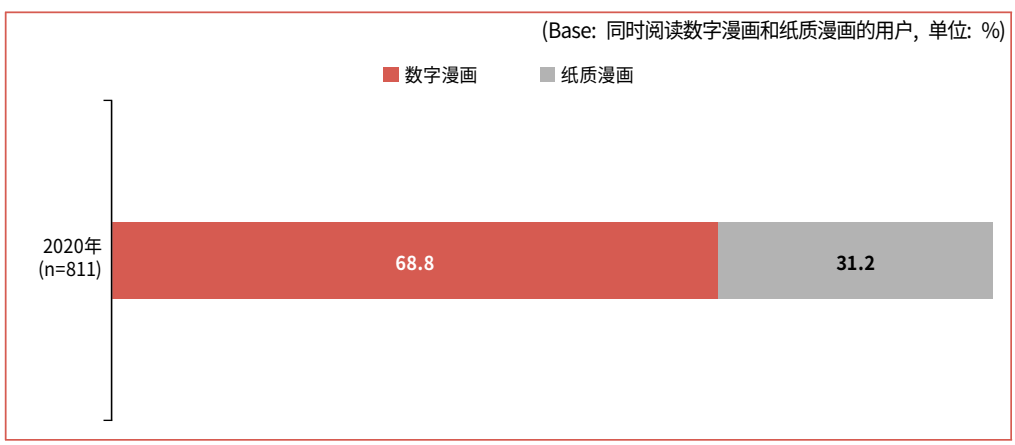

4) 数字漫画对纸质漫画的阅读比例

同时阅读数字漫画和纸质漫画的用户平均阅读数字漫画的比例为68.8%，纸质漫画为31.2%。

从回答者的特征来看，年龄段15~19岁(80.1%)“数字漫画”的阅读比例相对较高。

图 4 数字漫画对纸质漫画的阅读比例

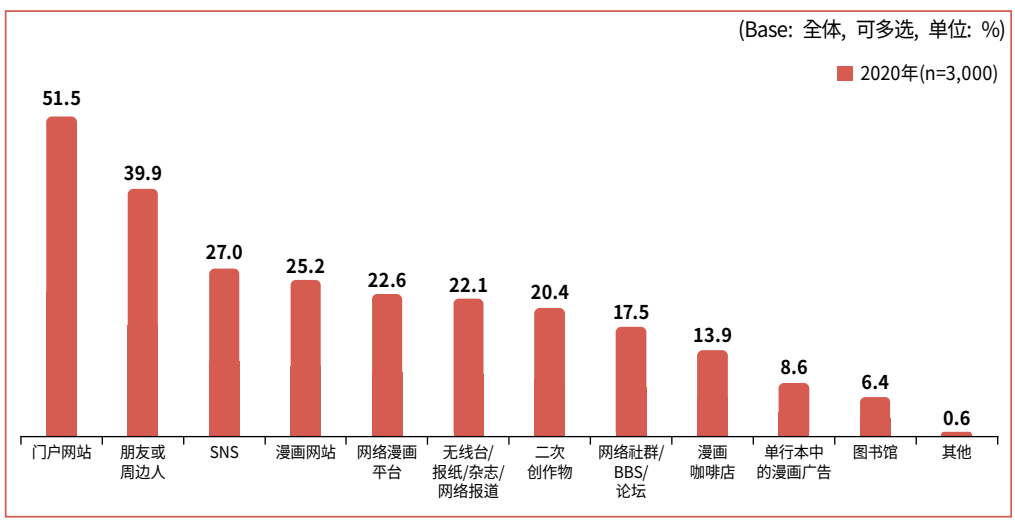

2. 获取漫画相关信息的途径

从获取漫画相关信息的途径来看，“门户网站”以51.5%占据首位。其后，依次为“朋友或周边人(39.9%)”，“SNS(27.0%)”等。

从回答者的特征来看，男性(52.9%)回答“门户网站”的比例相对高于女性(50.0%)。

从年龄段来看，40~49岁(55.1%)回答“门户网站”的比例相对较高。

图 5 获取漫画相关信息的途径

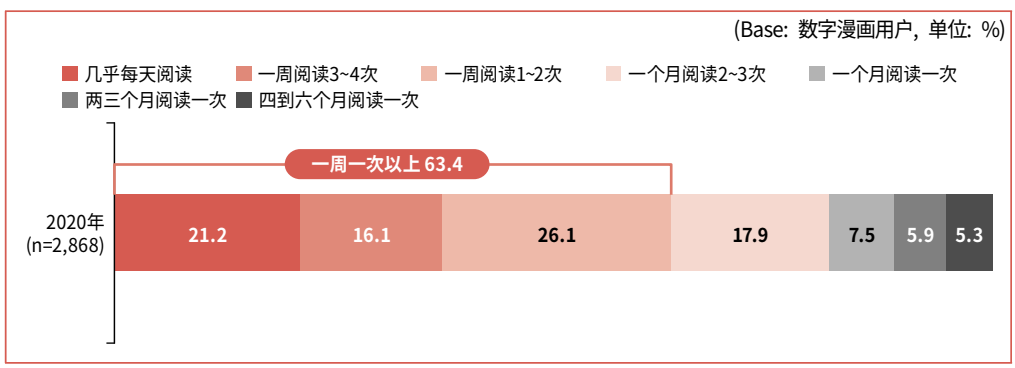

第2节 数字漫画阅读情况

1. 数字漫画阅读情况

1) 最近一年数字漫画阅读频率

最近一年看过数字漫画的回答者(n=2,868)的阅读频率“一周1~2次”以26.1%占据首位。

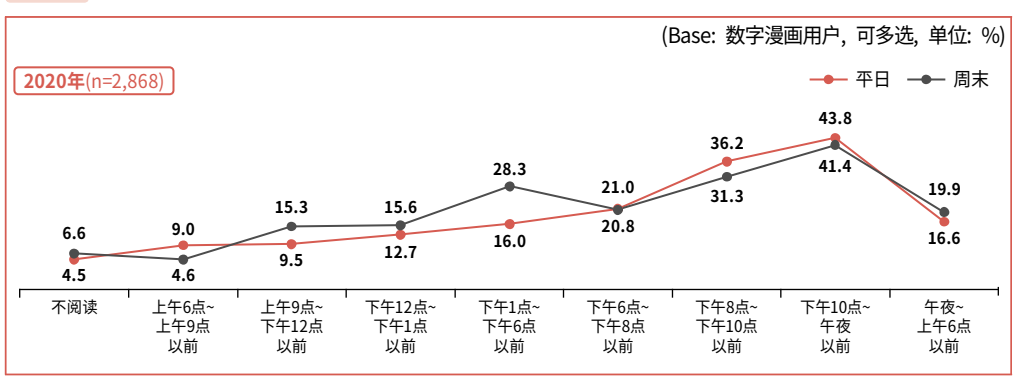

图 6 最近一年数字漫画阅读频率

2) 阅读数字漫画的时段

数字漫画用户工作日阅读数字漫画的时段“下午10点~午夜以前”以43.8%占据首位，周末阅读数字漫画的时段同样也是“下午10点~午夜以前”以41.4%占据首位。

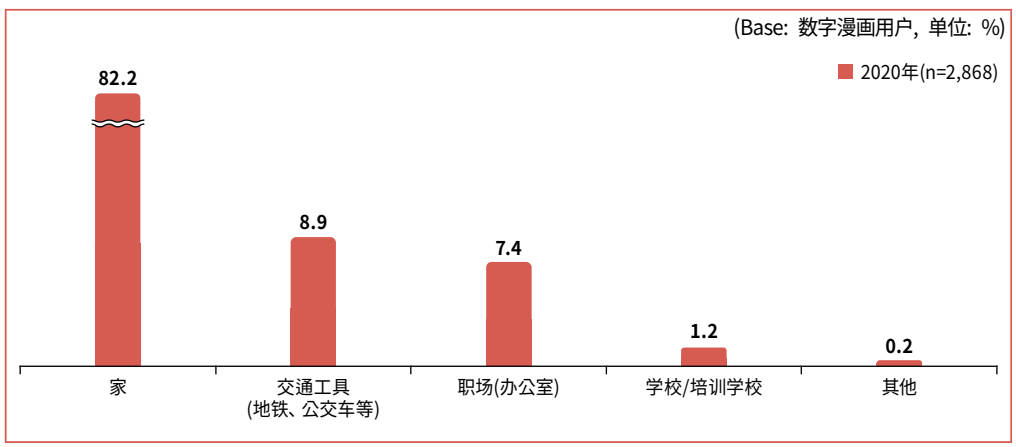

图 7 数字漫画的阅读时段

3) 数字漫画主要阅读场所

从数字漫画主要阅读场所来看，“家”以82.2%占据首位。其后，依次为“交通工具(地铁、公交车等)”(8.9%)，“职场(办公室)”(7.4%)等。

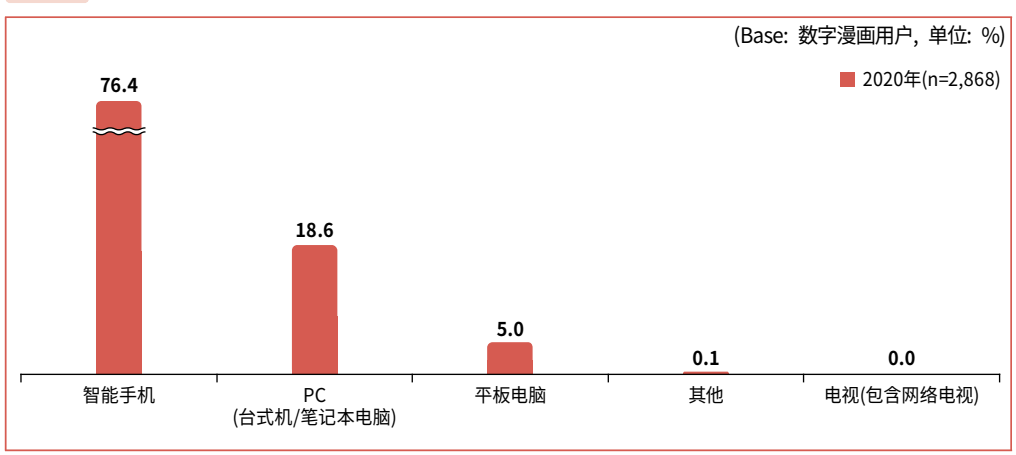

图 8 数字漫画主要阅读场所

4) 阅读数字漫画时主要使用的设备

在阅读数字漫画时主要使用的设备中，“智能手机”以76.4%占据首位。接着，依次为“PC(台式机/笔记本电脑)”18.6%。“平板电脑”5.0% 等。

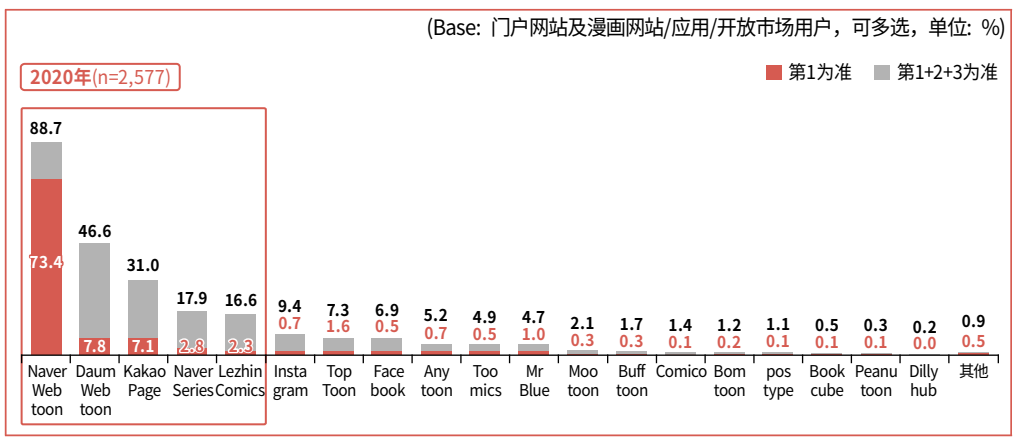

图 9 阅读数字漫画时主要使用的设备

5) 阅读数字漫画时主要使用的服务

在2020年阅读数字漫画时主要使用的服务中，“Naver Webtoon”以88.7%(以第1+第2+第3为准)占据首位，其次是“Daum Webtoon”(46.6%)，“Kakao Page”(31.0%)等。

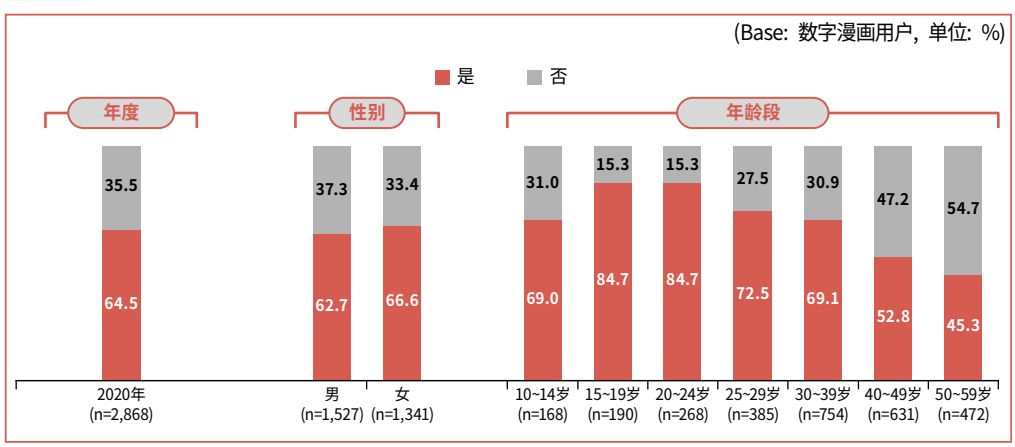

图 10 阅读数字漫画时主要使用的服务

6) 是否有爱看的数字漫画作品

在数字漫画用户中回答“是”的比例为64.5%。从性别来看，女性(66.6%)回答“是”的比例相对高于男性(62.7%)。从年龄段来看，15~19岁(84.7%)和20~24岁(84.7%)回答“是”的比例相对较高。

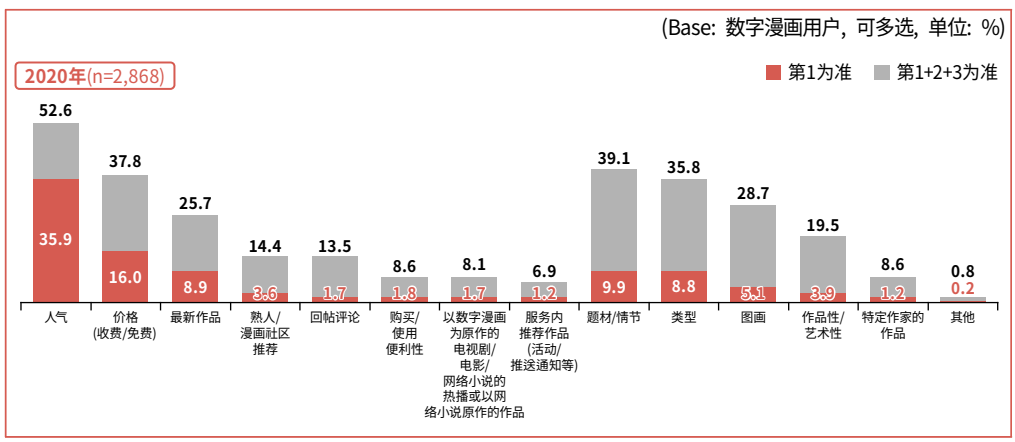

图 11 是否有爱看的数字漫画作品

7) 选择数字漫画时的考虑因素

数字漫画用户选择数字漫画作品时最先考虑(以第1+第2+第3为准)的是“人气”，以52.6%占据首位。其次为“题材/情节(39.1%)”，“价格(收费/免费)(37.8%)”等。

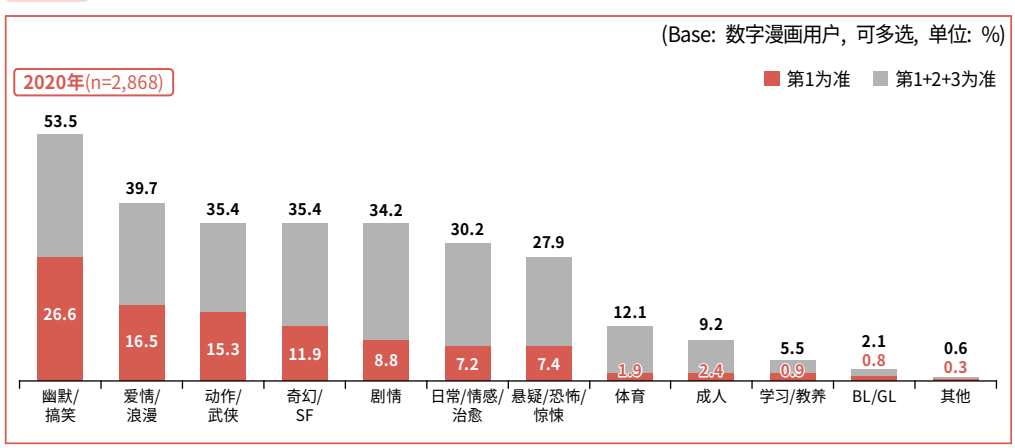

图 12 选择数字漫画时的考虑因素

8) 平时爱看的数字漫画类型

平时爱看的数字漫画类型(以第1+第2+第3为准)“幽默/搞笑”以53.5%占据首位。其次为“爱情/浪漫”(39.7%)，“动作/武侠”(35.4%)等。从回答者的特征来看平时爱看的数字漫画类型(以第1+第2+第3为准)时，男性(55.5%)爱看“幽默/搞笑”的比例相对高于女性(51.1%)。

图 13 平时爱看的数字漫画类型

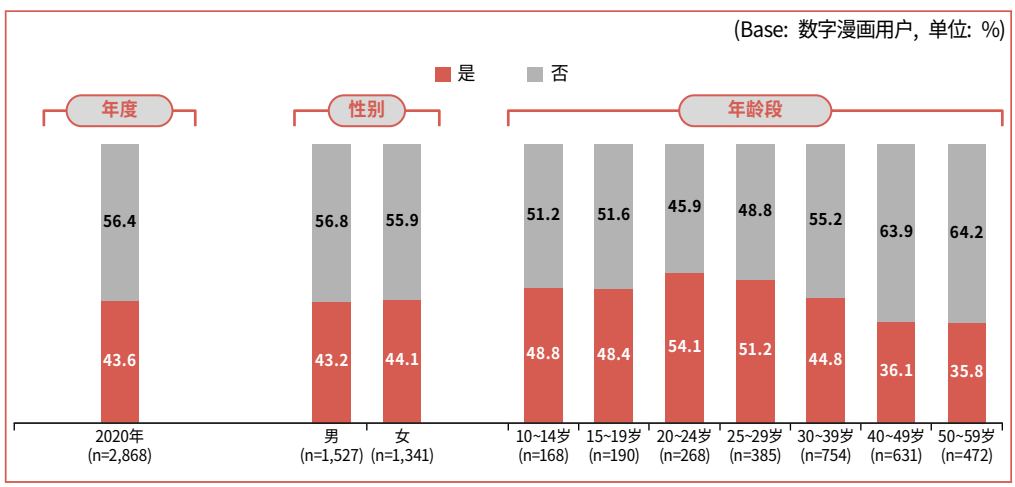

2. 关于阅读收费数字漫画

1) 最近一年阅读收费数字漫画的用户情况

在数字漫画用户中，对是否付费看过数字漫画的提问回答“是”的比例为43.6%。

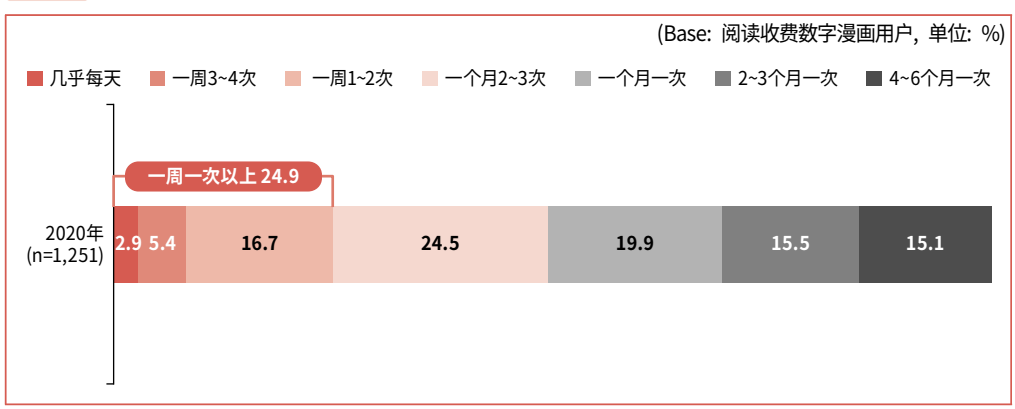

图 14 最近一年阅读收费数字漫画的用户情况

2) 阅读收费数字漫画的频率

收费数字漫画用户的阅读收费数字漫画频率“1个月2~3次”以24.5%占据首位。每周阅读收费数字漫画一次以上的比例为24.9%。

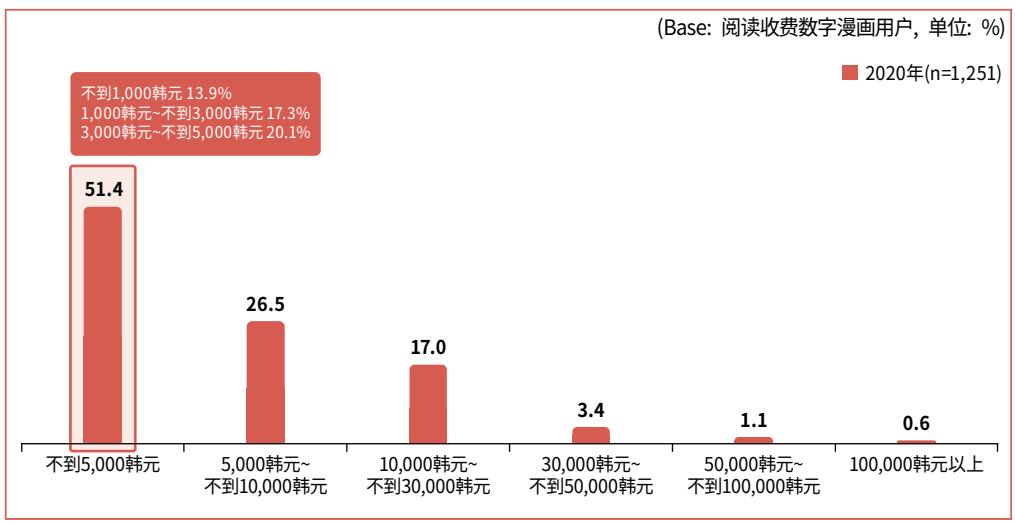

图 15 阅读收费数字漫画的频率

3) 用于购买数字漫画的月平均费用

收费数字漫画用户用于购买数字漫画商品的月平均费用“不到5,000韩元”以51.4%占据首位。

图 16 用于购买数字漫画商品的月平均费用

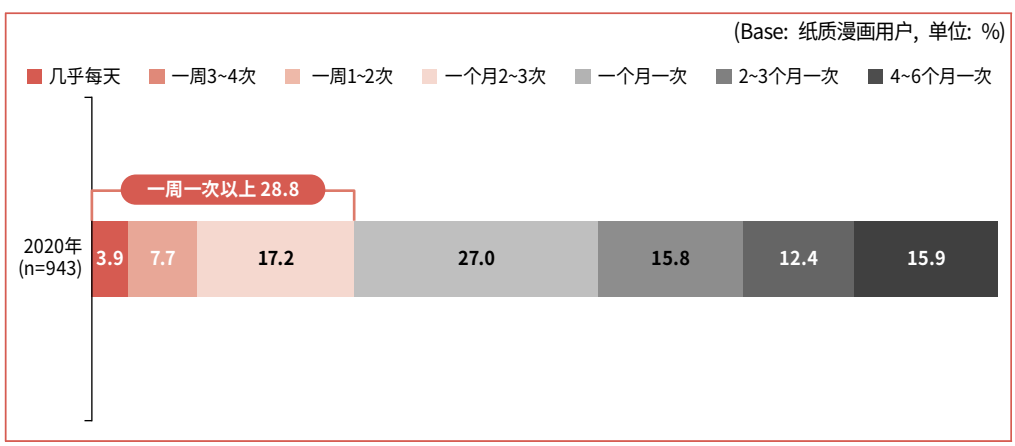

第3节 纸质漫画阅读情况

1. 纸质漫画阅读情况

1) 最近一年纸质漫画阅读频率

纸质漫画用户(n=943)的纸质漫画阅读频率“1个月2~3次”以27.0%占据首位。其次为“一周1~2次”(17.2%)，“4~6个月一次(15.9%)。每周阅读纸质漫画一次以上的比例男性(34.3%)，10~14岁(35.2%)相对较高。

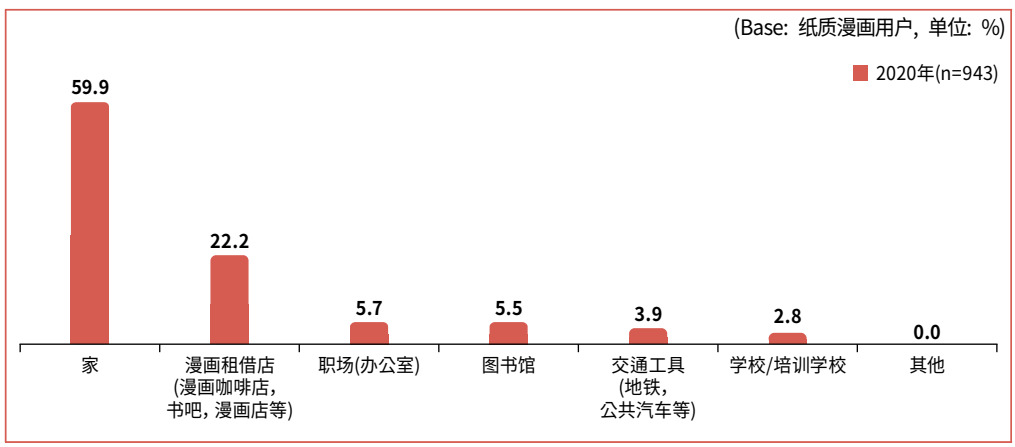

图 17 最近一年纸质漫画阅读频率

2) 纸质漫画的主要阅读场所

纸质漫画用户阅读纸质漫画的主要场所“家”以59.9%占据首位。其次为“漫画租借店”(22.2%)。

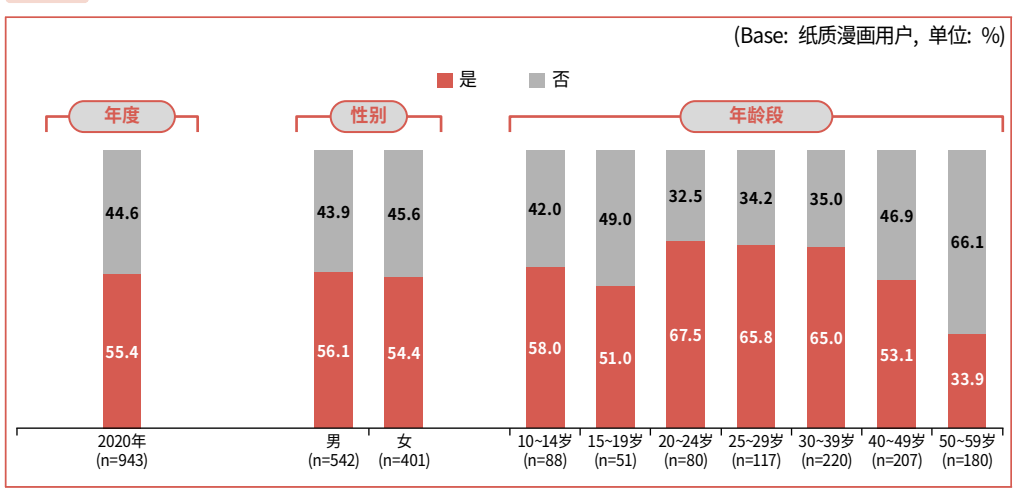

图 18 纸质漫画的主要阅读场所

3) 是否有平时爱看的纸质漫画作品

在纸质漫画用户中，对是否有平时爱看的纸质漫画的提问回答“是”的比例为55.4%。从性别来看，男性(56.1%)回答“是”的比例相对高于女性(54.4%)。

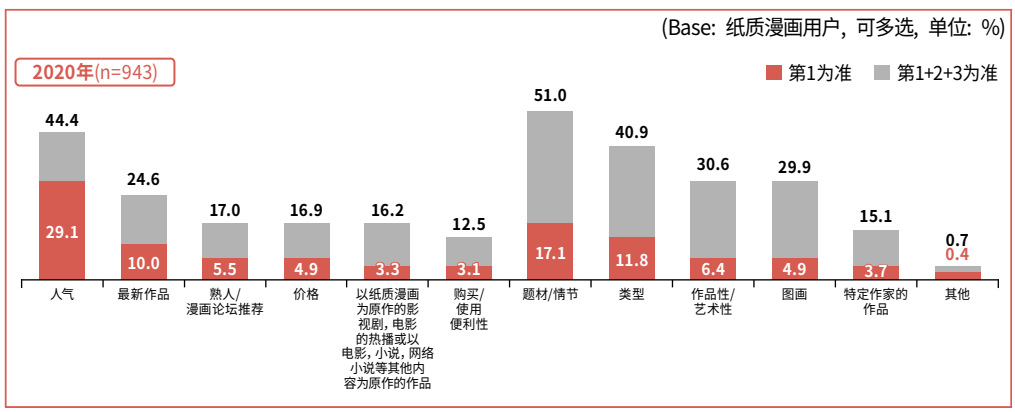

图 19 是否有平时爱看的纸质漫画作品

4) 选择纸质漫画作品时的考虑因素

纸质漫画用户选择纸质漫画作品时最先考虑(以第1+第2+第3为准)的是“题材/情节”，以51.0%占据首位。其次为“人气”(44.4%)，“类型”(40.9%)等。只以第1为准时，依次为“人气”(29.1%)，“题材/情节”(17.1%)，“类型(11.8%)”等。

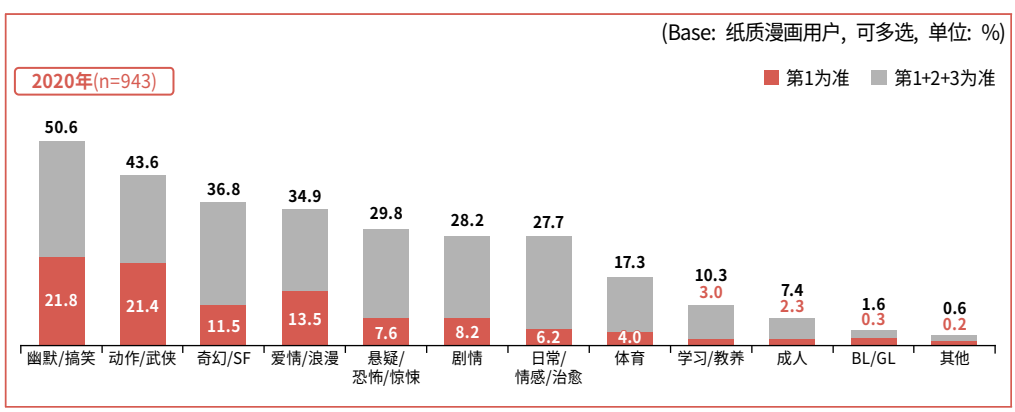

图 20 选择纸质漫画作品时的考虑因素

5) 平时爱看的纸质漫画类型

平时爱看的纸质漫画类型(以第1+第2+第3为准)“幽默/搞笑”以50.6%占据首位。其次为“动作/武侠”(43.6%)，“奇幻/SF”(36.8%)等。只以第1为准时，依次为“幽默/搞笑”(21.8%)，“动作/武侠”(21.4%)，“爱情/浪漫”(13.5%)等。

图 21 平时爱看的纸质漫画类型

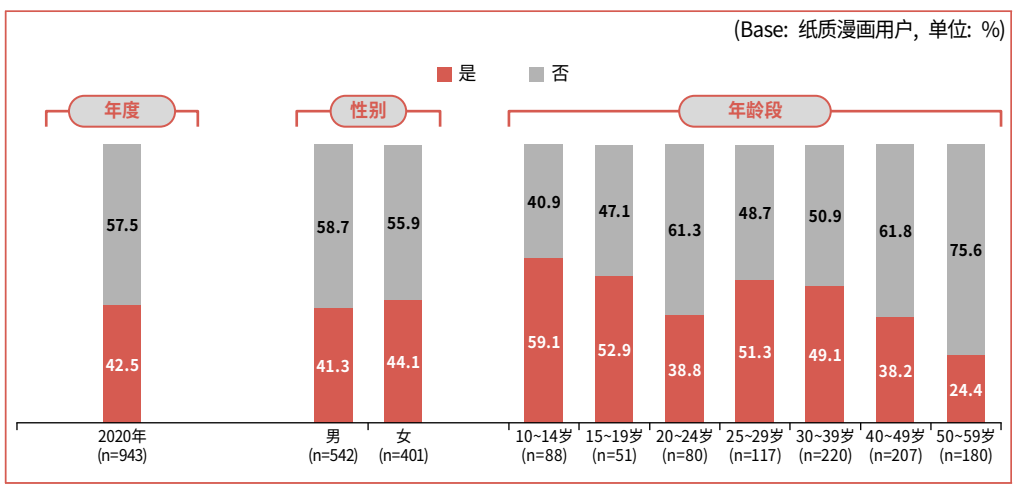

2. 关于购买纸质漫画

1) 最近一年纸质漫画购买情况

在纸质漫画用户中，对是否购买过纸质漫画的提问回答“是”的比例为42.5%。

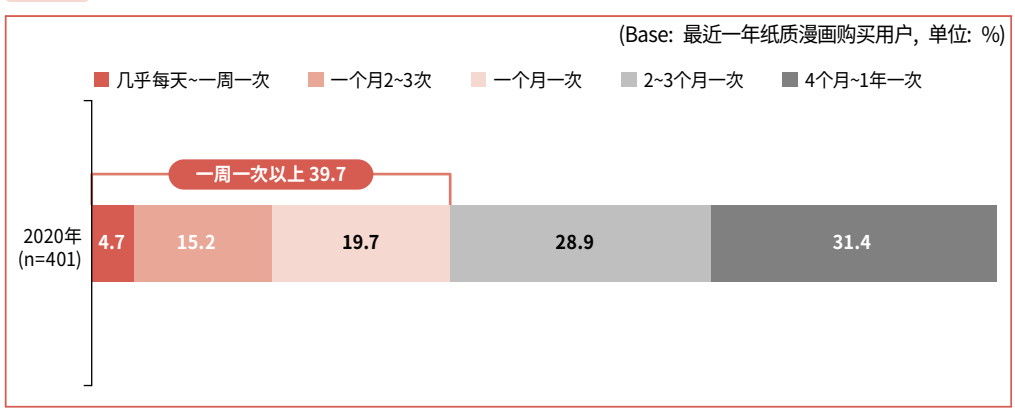

图 22 最近一年纸质漫画购买情况

2) 纸张漫画购买周期

纸质漫画购买用户的纸质漫画购买周期“4~12个月一次”以31.4%占据首位。其次为“2~3个月一次”(28.9%)，“一个月一次”(19.7%)等。

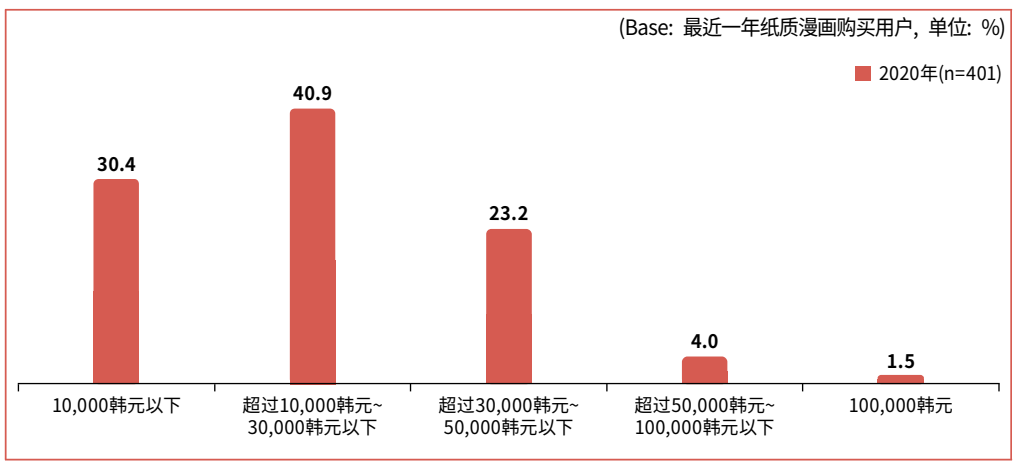

图 23 纸质漫画购买周期

3) 用于购买纸质漫画的月平均费用

购买过纸质漫画的用户用于购买纸质漫画的月平均费用“超过10,000韩元~30,000韩元以下”以40.9%占据首位。

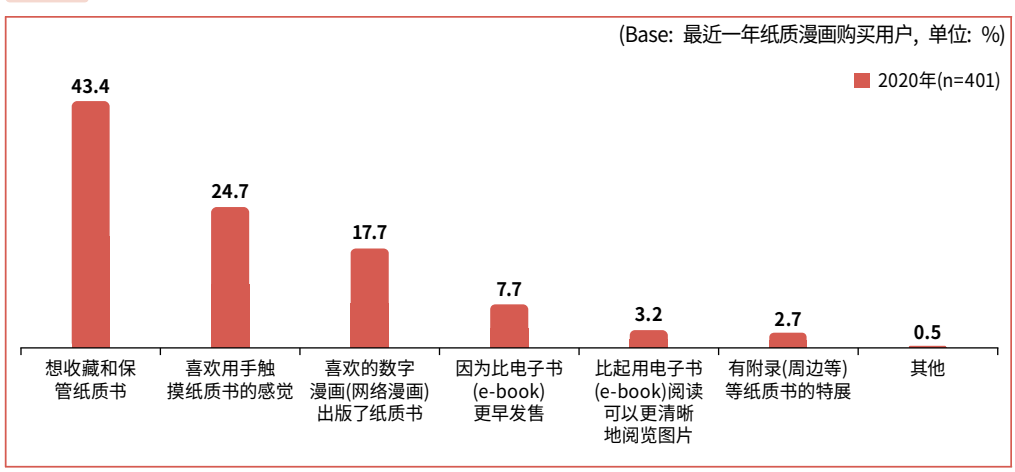

图 24 用户购买纸质漫画的月平均费用

4) 购买纸质漫画的理由

在购买纸质漫画的理由中, “想收藏和保管纸质书”以43.4%占据首位。其次是 “喜欢用手触摸纸质书的感觉”(24.7%), “喜欢的数字漫画(网络漫画)出版了纸质书”(17.7%)等。

图 25 购买纸质漫画的理由

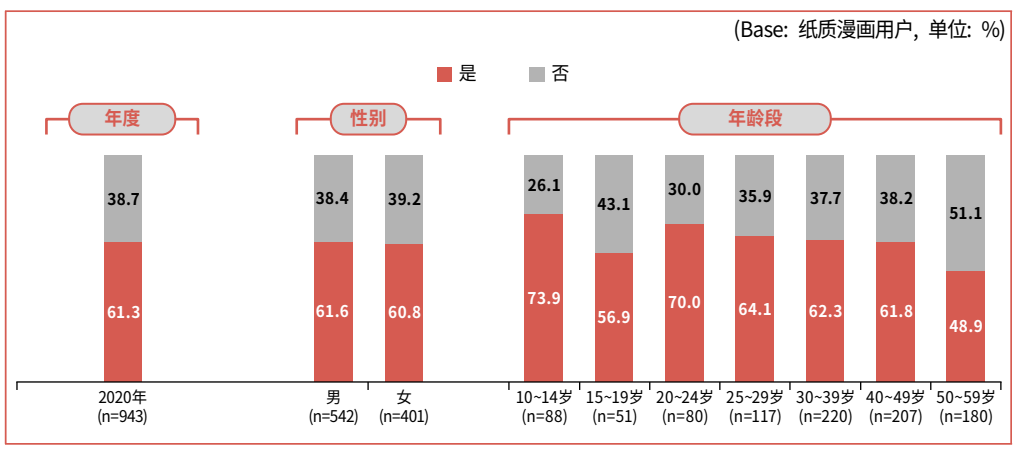

3. 关于借阅/阅览纸质漫画

1) 最近一年纸质漫画借阅/阅览情况

在纸质漫画用户中，对是否借阅/阅览过纸质漫画的提问回答“是”的比例为61.3%。

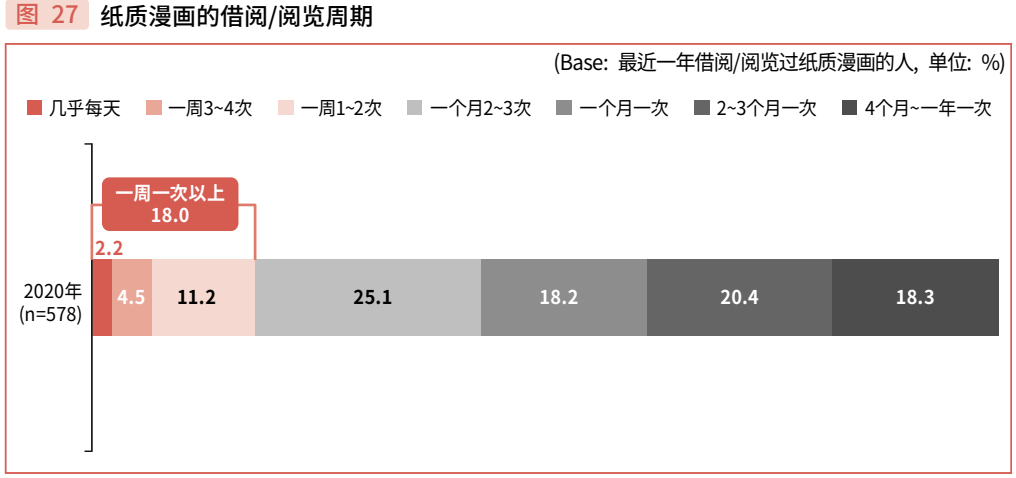

图 26 最近一年纸质漫画借阅/阅览情况

2) 纸质漫画的借阅/阅览周期

借阅过纸质漫画的人的借阅/阅览周期“一个月2~3次”以25.1%占据首位。其次是“2~3个月一次”(20.4%)。

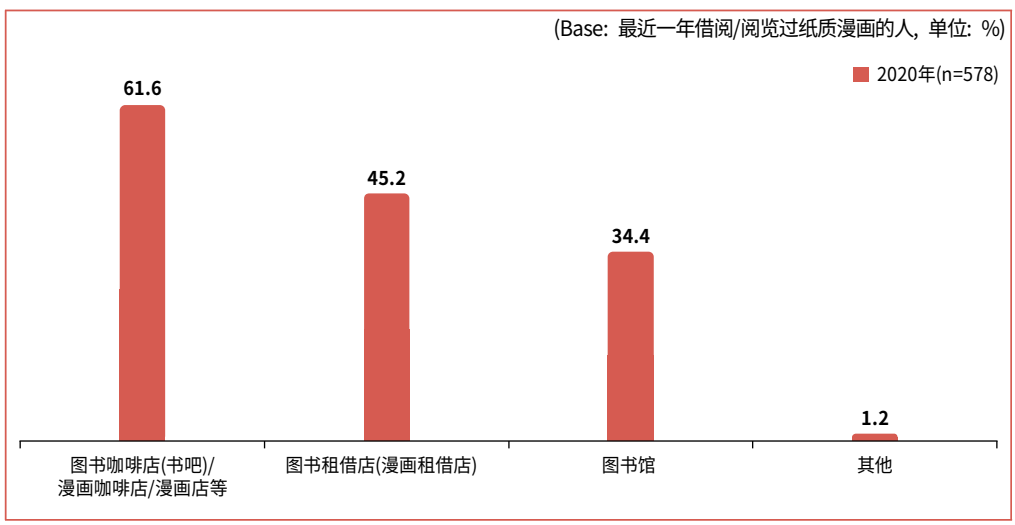

图 27 纸质漫画的借阅/阅览周期

3) 纸质漫画的借阅/阅览方式

在纸质漫画的借阅方式中，“图书咖啡店(书吧)/漫画咖啡店/漫画店等”以61.6%占据首位。其次为“图书租借店(漫画租借店)”(45.2%)，“图书馆”(34.4%)。

图 28 纸质漫画的借阅/阅览方式

第3章 2019年漫画产业扶持情况

第1节 制作能力强化

1. 创作与制作扶持

1) 多元化漫画制作扶持

该项目旨在保护和传播未被公众熟知的漫画类型的多样性，并创造一个可以实现多种文化价值的文化生态系统。该项目资助了34部优秀的新多样性漫画的制作，这些漫画没有优先考虑商业目的，如艺术漫画或实验漫画。制作资助分为冷门类题材和儿童动画片制作资助，并举办了商业竞赛。大赛共有116家公司和作家参加，共收到122幅作品。

按照制作量给收到的作品给予了不同金额的创作资助金，70%的资助是支付给艺术家的创作资助金，以创造一个让艺术家可以更专注于工作的环境。

入选作品不仅制作单行本图书还参与韩国国内大型活动，拓展了各种推广和二次产业的发展机会。

2) 漫画策划和开发扶持

这是一个鼓励创作者积极开发自己的作品的项目，通过资助策划和取材阶段，解决他们实际最迫切的需求，从而将优秀的策划创意理念与创作联系起来。为了让创作者专注于自己的作品，15%的资助金用于策划、开发和取材费，85%的资助金用于创作资助金，以发掘和制作32种新的策划和开发作品。大赛共收到269件作品，竞争率高达8.41:1。该项目还实施了针对入选作品的各种促销活动，以提高完整性和扩大商业化的可能性。

考虑到制作周期，为了让创作者更专注于策划和开发，公司计划通过调整成果数量，扩大对更多创作者的资助范围，提高项目的质量和数量水平。

3) 漫画内容多样化扶持

该项目通过提出漫画内容新的享受方式和获取新的漫画消费群体来扩大漫画文化基础并促进漫画消费。该项目资助了2个展览作品和4个MCN内容。

4) 连载漫画制作扶持

该项目资助了线上和线下媒体29个新连载漫画作品的制作。通过创作者与媒体的双赢合作，产业生态系统和漫画创作基础得以巩固。制作的作品获得韩国门户网站连载服务资助并在韩国大型活动中进行推介，为二次产业化发展提供了契机，并通过创作者与平台的结合，促进了漫画创作生态系统的构建。

第2节 分销扶持

1. IP扩散扶持

1) 漫画相关内容制作扶持

漫画相关内容制作扶持自2014年以来，以通过获取漫画IP的多种发行渠道来推动漫画IP的商业发展和漫画IP的高附加值为目标，制作了电影、动画、游戏、电视剧、表演等各类类型的二次内容。2019年选取10部作品给予内容制作和营销费用资助。

内容制作公司继续寻找知名度高和故事性强的优秀的原创漫画，并通过宣传活动，促进了优秀漫画IP的发掘以及内容制作公司与创作者的匹配。

2) 漫画IP推广

为了继续发掘有竞争力的漫画IP，建立公平的漫画欣赏文化，2018年新设的该项目从两个方向展开：开展杜绝使用非法分享网站的活动和举办漫画IP推介活动。

2019年12月至2020年1月的“杜绝使用非法分享网站”活动敦促非法分享网站的用户通过在线、户外电子板、影院广告等多种渠道提高认识。

2019年漫画IP推介活动共举办了5届，通过结合各内容题材的主要活动来举办推介活动，邀请各内容题材的买家并推介韩国漫画IP。

表 2 2019年漫画IP推介活动概要

举办场所	K-Comics in Comic-Con Seoul	Story & Comics to Broadcast	K-Comics to PLAY	K-Comics in G-Star	GCC K-Content Showcase
时间/场所	8.2.~8.4./COEX	8.22.~8.23./COEX	10.14. /Blue Square Chaos Hall	11.14.~11.15. /BEXCO	12.9.~12.11. /东大门DDP
关联场所	Comic Con Seoul	BCWW	-	G-Star	-
推介作品	10部	14部	7部	6部	10家公司
买家数	118名	332名	102名	126名	84名
洽谈件数	53件	280件	48件	43件	129件

通过总共5场漫画IP推介活动，重点向希望在2019年使用漫画IP制作内容的相关人员介绍韩国漫画IP，并为推介公司和内容制作公司之间提供尽可能多的业务机会。

2. 振兴韩国国内分销

1) 建立网络漫画存档

漫画和网络漫画是各种内容和文化资源的根源，经过长期的发展，这些内容和文化资源可以扩展为二次内容。尽管随着网络漫画的发展，人们对漫画产业的兴趣也在增加，但现实是网络漫画的综合管理体系还不够完善。为此，正在推进“网络漫画档案馆建设项目”，针对目前管理分散的漫画、网络漫画相关数据库的特点，提出开发综合信息管理系统的方案。

随着网络漫画存档ISP的建立，原创漫画和网络漫画数据库稳步建立，2019年共收集网络漫画分销信息1,446条，漫画图片2,016张。收集的数据正在进一步细分以成为专门的数据库。数据库在漫画统计和研究等各个领域得到了广泛的应用，将为漫画产业工作者提供有用的信息和功能。

2) 数字漫画奎章阁(朝鲜时期的王室图书馆)项目

该项目旨在通过收集和保存漫画材料、建立漫画知识信息数据库来提高韩国漫画的价值，并通过基于漫画研究的展览和教育提供欣赏漫画的机会。

图 30 专业漫画信息数据库建立情况

总计	漫画综合数据库(网络漫画等出版漫画)	作家/作品信息数据库	新闻报道数据库(研究/海外动向等)
10,133件	9,567件	125件	441件

专业漫画信息数据库建立情况

3) 出版漫画信息杂志扶持

2018年首次开设的漫画信息杂志出版扶持旨在分享与漫画产业相关的信息，为消费奠定基础，和为漫画文化的创建打下基础。该项目从2018年一直实施到2019年7月，期间推出了四期漫画信息杂志(季刊)，在2019年发行了两期信息杂志(9月和12月)。

3. 开拓海外市场扶持

该项目旨在通过资助翻译适合出口的优秀韩国漫画来增加进军海外市场的机会，将韩国漫画打入国际市场并为其建立海外网络，面向主要海外战略市场的商业资助以及网络漫画的品牌推广支持。目前有4个项目正在进行中。

1) 漫画海外出口及国内外营销扶持

随着全球市场对韩国漫画和网络漫画的兴趣不断增加，为促进韩国漫画进军全球市场和出口，2019年韩国漫画参与了漫画相关的海外活动，并以外国内容制造公司为对象举办了漫画IP宣传和推介活动。

在北京国际书展(8月)和法兰克福书展(10月)等国际展览活动中设立了韩国馆。

此外，在日本(5月)和美国(11月)举办了韩国漫画推介活动(K-Story & Comics in Japan, K-Story & Comics in America)，结合在泰国(6月)和俄罗斯(8月)举办的“K-Content Expo”，参展的韩国漫画公司得以宣传自己公司的作品，并获得与当地买家进行商务洽谈的机会。此外，还参加了“2019巴黎漫画展”(10月)和“2019 东京漫画展”(11月)，有机会向当地普通大众漫画迷宣传韩国漫画和网络漫画。

2) 韩国漫画海外展览和漫画交流扶持

韩国网络漫画作为新韩流的核心内容，正在全球范围内不断发展和演变。通过传播韩国网络漫画的原创性和多样性，促进了各种海外展览和漫画交流，以提高全球知名度，提高漫画的艺术价值。

海外展览以与海外文化中心相关的展览和与漫画内容有关的私人赞助展览方式举办。与海外文化中心相关的展览在加拿大、意大利和巴西举行大型节庆活动和漫画活动的同时举办，以加强对该项目的宣传。

与海外文化中心相关的展览不仅与海外文化中心和海外相关人员合作介绍韩国流行的网络漫画，还通过策划如绘画演示、讲座和研讨会等各种节目得到了当地的极大反响。在日本、比利时和法国三个国家举办了与漫画内容相关的私人赞助展览，对介绍韩国网络漫画的卓越性和文化发挥了重要作用。

除海外展览外，还积极开展漫画交流活动，促进漫画文化和作家以及国家之间的交流与友谊。首先，中日韩漫画大赛在中国重庆举行，旨在发掘亚洲三大漫画强国的新漫画家，

加强中日韩三国之间的网络联系。国际漫画大赛是一个通过世界各地漫画家的友谊与和谐促进相互了解的民间交流组织，2019年在日本北九州举行，旨在加强民间的合作意愿以发展漫画内容产业。

3) 网络漫画海外推广

该项目是为奠定如寻求新的商业联合模式和新的海外买家等全球业务发展基础的项目。着眼于了解海外漫画产业的发展趋势和加强产业网络，面向韩国国内出版社、中介机构、平台、漫画相关人员，参与了中国、香港、美国、印度尼西亚等海外大型漫画活动，为进军海外市场提供了新的推动力。

为了给不仅难以进入海外市场，甚至难以打进韩国国内市场的漫画内容公司提供全球商机，我们会邀请优秀的海外买家来韩国，并每年举办“韩国国际漫画市场（KICOM）”。

在2019年富川国际漫画节期间，60家韩国国内公司和16家外国买家公司（9个国家）成功参与了“韩国国际漫画市场（KICOM）”，并达成了304件商业洽谈，512亿韩元（4415万美元）洽谈金额，促成合约金额48亿韩元（414万美元）和2份谅解备忘录的成果。

4) 出口作品翻译扶持

该项目对44种39部出口漫画作品提供翻译和重新制作资助，使更多外国读者能欣赏到优秀的韩国漫画。通过将作品翻译成英语、日语、汉语、法语等符合当地人情文化的八种语言，为包括漫画相关的出版商、代理商和平台等20家公司进入海外市场奠定了基础。

该项目资助的作品数量较上一年翻了一番，使得更多公司和作品受益匪浅，并加强了项目之间的联系，使翻译作品能积极用于海外商务和宣传活动。此外，80%以上的资助金用于支付翻译、检查和编辑费用，从而进一步减轻了公司的翻译负担。

尽管该项目通过与专业外语机构的合作促进了外语评价的加强和翻译水平的提高，但由于缺乏专业从事漫画翻译的翻译人员，翻译质量的提高仍然是一项有待解决的任务。
